

STATE PRESENTS MANY WITNESSES

Attempts to Prove That Ed Herbert Had 60-Barrel Vat of Mash in Wheat Field on Gings Farm

CONNSVILLE POLICE HERE

Defense Attempting to Prove Mash Was Not Liquor And Was Not Made for Purpose of Sale

Ed Herbert of Gings was still on trial today in the circuit court on the liquor law violation charge, and it was not expected that the case would be given over to the jury before some time Wednesday morning.

Judge Fremont Miller of Franklin, Ind., is acting as special judge in the case, and the jury is hearing the evidence and will pass on the matter.

The defense was presenting testimony this afternoon, as the state finished up shortly before eleven o'clock this morning. The state produced many witnesses, in order to convince the jury that the defendant had a 60-barrel vat of mash on his farm, in the middle of a wheat field, last June.

Chief of Police Ketchum and Patrolman Jones of Connersville were witnesses for the state yesterday afternoon when they testified concerning the arrest of Herbert and Raiford Garris, 15-year-old boy, in that city last June.

The arrest of the boy in an intoxicated condition led the officers here to the Herbert farm, and the search was made, which is said to have uncovered the barrel of mash.

The Connersville officers also presented a quart bottle of "red liquor" partly filled, which they said was found in the machine on the night that the arrests were made.

The defense today was attempting to establish proof that the barrel of mash was not liquor, nor was it made for the purpose of sale, and that it was kept there as a hog food, or mash, and that it was carried to hogs in a pen in a nearby field.

The jury will have to decide from the evidence whether or not the mash was manufactured with illegal purposes.

The state case against Earl Perkins, charged with arson, is scheduled to be tried Thursday before a jury. In this case the defendant is accused of setting fire to a building at the corner of Seventh and Arthur streets last April. Sheriff Hunt today was summoning witnesses for that case.

EPIDEMIC OF MEASLES IS SPREADING NORTH

Several Cases of Disease Reported From Milroy Vicinity Following Williamstown Deaths

STRICT QUARANTINE URGED

The measles epidemic which is sweeping Williamstown, and which resulted in three fatalities in the last few days in that town, is now making its appearance in Milroy, and officials in the schools and physicians are being urged by Dr. E. I. Wooden, county health commissioner, to take all steps necessary to check the advance and spread of the disease.

According to the history of the disease at Williamstown, which is located a few miles south of Milroy, the patients are taken ill suddenly, and in the cases of the three deaths, they were not ill very long.

One Milroy physician reported eight cases of measles in that town since Saturday, and unless it can be checked, the schools will probably be closed, and a rigid quarantine established. Houses under quarantine should observe all rules regarding the health of the community, and notices to this effect are being sent to these people through the mail, by Dr. Wooden. A fine and penalty is attached to quarantine violations, it is pointed out.

The three deaths at Williamstown last week were on the Decatur county side of the village, as the east and west road through the town is the Rush-Decatur county line.

DISCUSS REPAIR OF ROOF

Commissioners Also Hear Complaints About Road Contractor

The county commissioners, at their monthly meeting Monday afternoon, discussed plans for repairing the court house roof, which was put on new a few years ago, but no definite arrangements were made.

Sam Beaver, superintendent of the Morrison Beaver road in Noble township, complained to the board that the contractor would not finish the road because he could not get stone. The man supplying the stone agreed to provide it so that the road could be completed.

The commissioners will receive bids for supplies for court house offices December 14, it was decided. The usual claims were allowed.

MORE BIRTHS THAN DEATHS IN COUNTY

Grim Reaper Falls Short Ten in Rush County, Statistics For October Reveals

34 BIRTHS; 24 DEATHS

Dan Cupid Floods Market With 21 Marriages—Other Statistics For Last Month

Births ran ten ahead of deaths in Rush county during the month of October, Dan Cupid united 21 couples, and only 5 couples brought suit for divorce during the month, according to statistics compiled from the various offices for the month.

There were 34 births reported and 24 deaths within the county during October, of which number 21 births were reported from the county outside of the city and 13 in Rushville, and of the deaths, 17 were outside of the city and 7 within the city.

In compiling the data on the monthly statistics, the records at the fire station reveal only a \$25 loss during the month, which was due to one roof fire. The fire department responded to 7 calls, one of which was false, and with only six cases of a fire or cause of alarm. Two of the alarms were box calls, four telephones, and one oral alarm.

Loren Martin, county clerk, reports 21 marriage licenses which sets a new record for the year. The five divorce proceedings are also embodied in the 31 civil suits filed during the month, and the ratio for marriages and divorces show a little better average than 1 divorce for every fourth marriage license.

Only three cases of contagious diseases were reported in October, with two scarlet fever cases in Rushville and one scarlet fever case in the territory outside of the city. The report on births, as recorded for the month, and tabulated are as follows:

Rushville City
Donald Edward Miller, 227 East

BIG CLASS ADOPTION AT M. W. A. HALL NOV. 8

Thirty Candidates Will be Initiated Into Mysteries of Woodcraft in The Evening at Seven O'clock

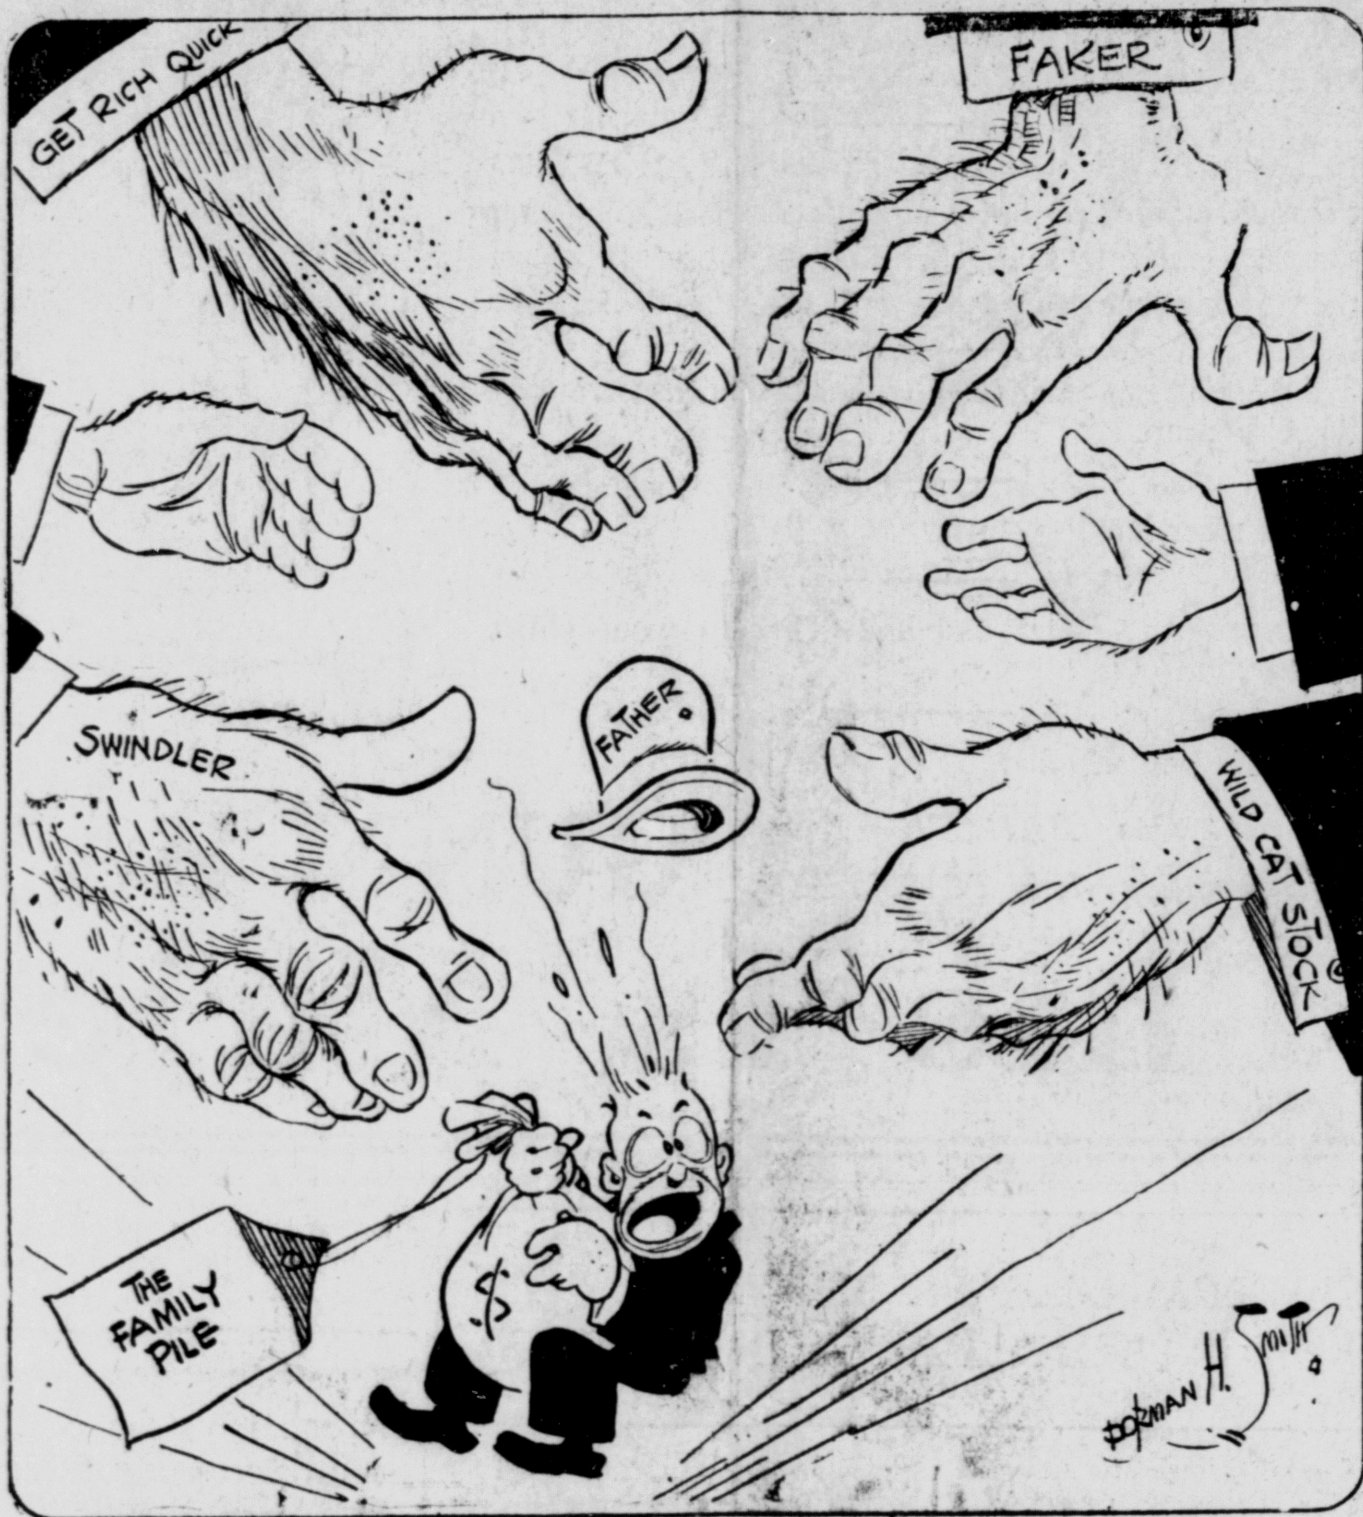

OFFICERS TO WEAR NEW ROBES

The big class adoption of the Modern Woodmen of America will be held at the Modern Woodmen Hall Thursday night, beginning promptly at seven o'clock. There will be thirty candidates initiated into the mysteries of woodcraft.

The new robes of the officers have arrived and will be used for the first time that night. The clerk of the local camp has received word that a delegation of 25 or 30 Woodmen from Connersville will be present that evening and camps at Greensburg, Shelbyville, Rays Crossing, Manilla, Milroy, New Salem, Knights-town and Lewisville have sent word that they would be represented at the meeting.

The refreshment committee is busy preparing the eats for the occasion. The degree held its final practice for the initiation Monday night.

IT ISN'T WHAT YOU SAVE, IT'S WHAT YOU KEEP

TAXPAYERS HERE WILL ORGANIZE

County Association Will be Formed at Court House Assembly Room Meeting Saturday

PRELIMINARY SESSION HELD

Representative of State Association Explains Purposes And Committee is Selected

The organization of the Rush County Taxpayers Association, a branch of the Indiana Taxpayers association, will be affected at a meeting of taxpayers in the court house assembly room Saturday afternoon at two o'clock, it was decided at a preliminary meeting held late Monday afternoon at the American Securities company, which was addressed by J. S. Young, a representative of the state association.

A committee of five was appointed by the temporary chairman of Monday's meeting to draw up a call for the permanent organization meeting. The committee, which is composed of John H. Kiplinger, Douglas Morris, Robert A. Innis, Phil Wilk and Vern W. Norris, will meet at the county auditor's office tonight to make preparations for the meeting.

A group of twenty-two representative men of the community was invited to meet Mr. Young and hear an explanation of the plans of the state association, which has been in existence only since September of this year, but which has accomplished tangible results in effecting savings for the taxpayers of Marion county.

Mr. Young said that the state association planned to organize every county in the state, and he asserted that in the four counties previous to Rush, which have been organized, the same keen interest was shown in the enterprise, as had been displayed here.

It is provided that the county associations shall be organized by townships, with every township being represented on the board of directors, and that they shall be entirely separate from the state organization, the function of which is largely to organize the county associations.

The purpose of the state association, as set forth in the articles of association, is "to aid, encourage and promote the reduction of public expenses and taxes in the state of Indiana, and in the counties, cities and other political subdivisions thereof."

CLOSE TO \$55,000 LAST DAY

Tax Collections Last Day Will Mount Higher By Late Mail

Close to \$55,000 in taxes was collected at the county treasurer's office Monday, the last day for paying fall taxes without having a penalty attached for delinquency, but this amount was expected to be considerably increased by the checks mailed Monday and received today. They all count in Monday's receipts, by reason of having been mailed before the period for paying taxes ended.

Total collections up to the close of business last night were only a few dollars short of the goal of \$440,000 set at the treasurer's office. Taxes falling due amounted to \$447,000, but there are always several thousand dollars in delinquency.

WANTS D. D. BALL HIRED NEXT YEAR

County Board of Education Recommends That Purdue Reappoint County Agent For This County

MONTHLY MEETING HELD

Results Obtained in Schools on Agricultural Subjects—School Reflector is Praised

The Rush County board of education, composed of the township trustees, held their regular monthly session Monday afternoon in the office of B. D. Farthing, county school superintendent, and several matters of importance were taken up, including a discussion about the county agricultural agent, and the unanimous decision to request Purdue university to retain Donald D. Ball in that capacity.

The county agent question was discussed as to his duties in the schools, and what he is doing for the county now in that line. This is really the first school term that the county agent has been called upon to take active charge of the teaching of agriculture in the schools, and during the short space of time he has met with much success.

The county board voted to have Mr. Farthing report to Purdue of his work here, and the board recommended that he be reconsidered for the office, when his appointment becomes due next month.

The subject of Reading Circle books was presented to the board.

TRIBUTE PAID TO CHARLES H. BROWN

Banquet in His Honor is Held by Rushville Council at Masonic Temple Monday Night

CHOSEN AS GRAND STEWARD

Will M. Sparks, as Toastmaster, Praises Him For Services Rendered to The Lodge

A banquet in honor of Charles H. Brown, who was recently elected grand steward of the grand council of Indiana, R. & S. M., was held at the Masonic temple Monday evening, and the praises of Mr. Brown as a Mason who is never too busy to do something for Masonry, were sounded by Will M. Sparks, who acted as toastmaster at the banquet.

One hundred and twenty-five members of Rushville council No. 41, R. & S. M. enjoyed the banquet, and following a brief program, in which the council and other divisions of Masonry expressed their appreciation of Mr. Brown's services as a Mason, through Judge Sparks, candidates were given degree work by Rush chapter, No. 24, R. A. M.

"No man in Masonry has deserved this honor more than has Charlie Brown," said Judge Sparks. "No man has given more of his time to the cause for which we stand than has Charlie. He has never been too busy for Masonic tasks and we all appreciate immensely the fine work that he has done."

"Charlie has never invited the honor that has been bestowed upon him. It came as a recognition of his services for the order. And Charlie comes as near living up to the teachings of the lodge as any man I know. These are the kind of men we want to recognize."

Judge Sparks digressed to say that most Masons are that way—men who follow the precepts of Masonry and live it in their lives. He asserted that Masonry is the best safeguard a man can have against improper living and that very few men go wrong after they become Masons. In this connection, Judge Sparks also commented on the influence of a man's thoughts on his life and affirmed that a man is what his thoughts are.

"I would be ungrateful indeed," said Mr. Brown in a short response. "If I did not express my appreciation for your manifestation of good will. The brotherhood of man and the fatherhood of God has been the

TO DELIVER PARCEL POST

Herschell Schmall New Substitute Carrier At Postoffice

Herschell Schmall has taken up his duties at the postoffice as substitute city carrier and parcel post delivery, succeeding Griffin Treadway, who became a regular city carrier a few weeks ago, when business required the addition of another city route.

Mr. Schmall was on the eligible list, and no examination was required at this time. By working as substitute carrier, and parcel post man, he also will deliver special delivery letters and parcels, and gradually work into the clerical duties. By the addition of Mr. Schmall, it gives Rushville six mail carriers, five of whom will have regular routes to cover twice a day. The fifth route has not been added, however, but will be soon.

RED CROSS WILL HOLD ROLL CALL

Rush County Executive Committee Decides To Make Appeal For Members Again This Year

TO MAKE NO ACTIVE CANVASS

Memberships May Be Renewed With Chairman Of Township Auxiliaries Or At County Headquarters

At a meeting of the Executive chapter of the American Red Cross, held at the headquarters of the organization in the court house, late Monday afternoon, plans were completed for conducting the annual roll call for memberships.

In the absence of W. E. Wagoner, chairman of the local chapter, who now lives in Indianapolis, Robert E. Mansfield was named as acting chairman, until the reorganization of the chapter, which will take place in December.

The Roll Call, as authorized by the National Red Cross, is November 11, Armistice day, to November 29. During this period subscriptions, and membership renewals will be received by the chairman of the auxiliaries of the Rush County chapter in the various townships throughout the county, and at the headquarters of the chapter in the recorder's office in the court house, Rushville.

A general personal canvass for memberships will not be made this year, as in the past, but patriotic citizens who are interested in the services of the American Red Cross are requested to renew their memberships through the headquarters of the organization in their local communities.

AUTOMOBILE STOLEN AT LAUREL RECOVERED

Machine For Which Rush County Association Offered \$50 Reward Found in Ohio

THIEVES MAKE GOOD ESCAPE

The automobile belonging to Ray Merrell of Laurel, which was stolen from the Van Meter garage in that place a week ago, and for the recovery of which and arrest of the thieves, the Rush County Horse Thief Detective association offered a \$50 reward, has been found near Glendale, O., where it was abandoned by the thieves.

The owner of the machine was notified Saturday by Cincinnati police that they were holding the car, and that it was found a few days after the theft. According to the information, the thieves piloted the car toward a lake, and then jumped, but the wheels of the car turned, and the machine stopped before it plunged into the water.

Empty boxes which had contained the inner tubes, spark plugs and other accessories that were stolen, were found in the machine by Kesley Shoets, near whose place the machine was abandoned.

Mr. Merrell and Earl VanMeter went to Cincinnati yesterday to recover the machine.

BE THANKFUL FOR HERITAGE, PLEA

E. B. Thomas Says People Of This Country Should Never Cease To Be Thankful For Living Here

SPEAKS TO THE ROTARY CLUB

What We Owe Pioneers Is Emphasized in Comparing U. S. Civilization With Porto Rico

"You men ought never to cease to be thankful that we live in this country," E. B. Thomas, formerly of this city, said before the Rotary club today noon in speaking of life in Porto Rico, where he has lived for the past eighteen months and has been in charge of the U. S. federal land bank.

"What you owe the men and women who blazed the trail that we might have our present high standard of civilization, can never be estimated. What a heritage we have, we will never be able to appreciate."

Mr. Thomas, who was a member of the Rotary club while a resident of this city, was moved to make this comment while describing the racial distinctions that exist on the island and the exploitation of the natives by the Spanish people.

"The most hopeful sign I find, however," he added, "is the desire on the part of the children for information. They are attentive and they all want to go to school."

"I sometimes think," Mr. Thomas said in this connection, "that we should arouse a desire for knowledge among some of our school children the privilege of attending children here in Indiana by denying school."

Mr. Thomas declared that there are 400,000 school children on the island and accommodations for only 200,000. Thousands are turned away from the schools every year and on the opening day, they go to the buildings early in the morning in order to be enrolled. University students, he said, stand in line all night the day before the opening of the term in order to be admitted.

"If I followed my first inclinations," Mr. Thomas said at the beginning of his address, "I would tell you of the joy, the real joy I have in being here. It is a tonic, sort of an elixir, to be greeted as I have been greeted."

Mr. Thomas has become a member of the San Juan Rotary club, but stated that when he was invited to join, he made sure first that his affiliation would not disturb his relations with the Rushville club, which is that of an honorary member. He said the San Juan club was composed of 75 members, about one-half of whom are continental Americans.

"Don't ever make the mistake of

TWELVE BODIES ARE RECOVERED FROM MINE

Thirty Men Believed Entombed in Coal Mine Near Beckley, W. Va. Following Explosion

FEARS FOR THEIR SAFETY

(By United Press)

Beckley, W. Va., Nov. 6.—Twelve bodies have been recovered from the pit of the Raleigh Wyoming Coal Company, Glen Rogers mine, near here, which was wrecked by an explosion this morning, according to a statement issued at noon today by company officials. Thirty men are believed still entombed, the statement said.

Sixty-five workers went down the main shaft of the mine at dawn. Twenty-three made their way to the surface soon after the blast. They were uninjured.

Mine officials expressed grave fears for the fate of the thirty men who have not come up.

Rescue squads were making headway through the debris in the mine at noon and several more bodies were being extricated, the mine officials said.

The cause of the blast has not been determined definitely, but it is believed to have resulted from a pocket of gas collecting far back in the mine.

IDLE TEN WEEKS RETURNS TO WORK

ERNA WOLFE
Marion, Indiana

Suffered With Brights Disease and
Influenza—Completely Recovers
Through Chiropractic
Adjustments

Mr. Wolfe says: Chiropractic has done so much for me that I feel I should tell others of my experience.

"For a long time I was troubled with Brights Disease and during the course of this illness I contracted Influenza, which left me in such a bad condition that I finally had to quit my work for ten weeks.

"J. M. Starr, a Chiropractor, was called in and I started taking spinal adjustments. I began to improve immediately and returned to my work as blacksmith at the Marion Machine Foundry.

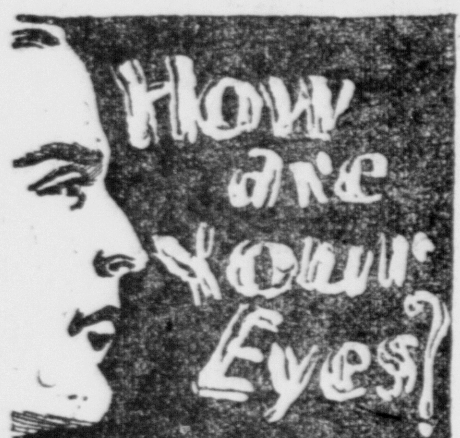

"After taking the complete course of adjustments I am a well man, having regained my former health and strength. I am indeed grateful for what Chiropractic has done for me. Signed: Erna Wolfe, 1602 West First St., Marion, Ind.

The one incomparable gift you possess is health. You cannot afford to be without it. Chiropractic is the inexpensive way of retaining or regaining it.

FLORENCE HOT BLAST

Air Tight Florence will pay for itself in a few seasons in the saving of coal.

The damper back of the fire pot eliminates the soot, dust, dirt and clinkers that must be put up with in using all other heating stoves.

The damper back of the fire-pot is the only ORIGINAL FLORENCE with the J. B. Howard Combustion device. Other makes of stoves are only imitations. If you want the Genuine Florence, see that the damper is back of the fire pot.

John B. Morris
HARDWARE

It will do all NUBIAN

We are going to be honest with you about THE NUBIAN HOT BLAST.

It is constructed with the famous J. B. HOWARD Combustion Device that is no doubt the best thing ever put on a stove to save coal, and as far as we know, there is only one other stove with the same device.

The Nubian has plain casting and nickle that are easy to keep clean.

Just a nicer looking stove.

It warms the floor and holds fire to your entire satisfaction.

We want you satisfied.

Come to Our MAJESTIC Range
Demonstration ALL THIS WEEK.

GUNN HAYDON

This Is Majestic Week

we claim for it NUBIAN

We do not want to disappoint you by telling you the Nubian will heat three or four times more space at one-fourth the cost than any other stove with the same fire-pot.

We do not want to tell you that the J. B. Howard Combustion device will save you two ton of coal out of every three—that would sound ridiculous, wouldn't it?

It will burn as much of the smoke, save as much coal, be as clean, and last as long as any other stove of the same construction.

The Nubian has been on the market for seventeen years and we are told by the manufacturers that their records show that out of all the many Nubians sold they have only furnished sixteen new fire bowls to users.

This is MAJESTIC Week. We give a set of ware with each Range bought.

EELWORM DISEASE MENACE TO ALFALFA IN AMERICA

The alfalfa eelworm disease caused by the alfalfa nematode, a parasitic eelworm, is causing considerable damage to alfalfa fields in America and consequently serious losses. This pest is proving itself to be extremely dangerous and one that deserves prompt and aggressive measures to check it before it becomes more widespread. The pest has been under observation by the United States Department of Agriculture in a few isolated locations in this country for the last two years, but it is feared that the present distribution may be greater than is now known.

Department Circular 297, The Eelworm Disease a Menace to Alfalfa in America, is a recent publication issued by the United States Department of Agriculture to acquaint the public with the nature of the disease and to enlist aid in determining definitely its presence or absence in all alfalfa-growing sections. The disease is responsible for serious loss where it occurs elsewhere in the world.

Mothers, Do This—

When the Children Cough, Rub
Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister.

As first aid, Musterole is excellent. Thousands of mothers know it. You should keep a jar ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole.

35c and 65c jars and tubes.

FOR INTERALLIED CONTROL

Paris, Nov. 6—Premier Poincare today on behalf of France and her allies sent a note to the German government demanding that she take steps to permit resumption of inter-allied military control, it was learned. The note insisted that Germany must reply before the end of the week.

DEAR TO THE HEART

Is there anything dearer to the heart of a woman than a real beautiful kitchen range? To witness the crowds at Guma Hayden's attending the special exhibit of the Majestic Range, one would think not. An expert from the Majestic factory is here for the week, and the way he shows the advantages of the Majestic heat-tight construction makes possible the accurate control of the heat while baking and how the linings and hidden construction are such that give long life to the range. It requires no expert to point out the smooth, lustrous finish of the Majestic Range—these speak for themselves. The new 1923 Model has many many improvements and is the last word in finish and design.

RUSHVILLE STUDENTS
EDIT WABASH PAPER

Louis E. Smith And William Frazee
Have Been Elected Managing Editors of The Bachelor

EACH HAVE ISSUE A WEEK

Crawfordsville, Ind., Nov. 6—Two Rushville boys who in high school published a weekly newspaper, continued their journalistic conquests until they have attained together the position of managing editors of the official semi-weekly newspaper of Wabash College. They are William Frazee, a member of the Beta Theta Pi Fraternity, and L. E. Smith, a Delta Tau Delta.

Since there are two offices of managing editors one of the managers will have charge of one issue of the paper each week.

Frazee and Smith made the staff over a large number of candidates in their freshmen year. They are now sophomores at college. Election to an office on the Bachelor is one of the highest honors that a Wabash student can gain.

The Rushville boys referred to in the above dispatch got their first experience on the Rushite, when it was started in the Rushville high school two years ago, and they had further experience in issuing the Holcad, high school senior annual. Mr. Smith also wrote a high school column in the Daily Republican which was very popular and showed that he had rare ability as a writer. Rushville friends of the two boys are very proud of their showing at Wabash.

FUNERAL OF MRS. COUCH

Funeral services for Mrs. Julia Couch, wife of William Couch, who died Monday afternoon, will be held Wednesday morning at nine o'clock at the St. Mary's Catholic church, in charge of the Rev. Francis Schaub. Interment will be made in Calvary cemetery.

ALTER SOCIETY TO MEET

Members of the Alter Society of St. Mary's Catholic church are requested to meet at the home of Mrs. William Couch this evening at eight o'clock.

MILROY

Miss Geraldine Root spent Thursday in Hamilton, Ohio.

The first basket ball game of the season was played with the Arlington team here Friday night. The girl's basket ball team also played their first game with the Arlington girls. LAST MAN"

Speed

Introducing the typewriting speed demons. Top shows Bessie Friedman of New York who recently won the world's championship for women typists. She wrote 8809 words in an hour, which, with penalties deducted was 143 words a minute. Below is Albert Tangora, who won the championship for all, with a speed of 147 words a minute.

Speaking of Twins

Now here's something to ponder. The gentleman who just brought back these two baby elephants, now at an animal farm on Long Island, says they're twins. If they are, they're the first you ever saw.

Marshall County Cows
Given First T. B. Test

Not quite a year was required to complete the first round or initial test of cattle for tuberculosis in Marshall County. To date, 10,252 head of cattle have been tested and about 230 head of tubercular cattle have been found and most of them slaughtered. All reactors have been shipped to Chicago for slaughter and on four occasions, parties of 8 to 10 men and women, accompanied by the County Agent, have gone to Chicago to see the cattle killed. In a few instances, some of these persons have been "doubters" and in each instance have been satisfied as

to the results, County Agent L. M. Butler reports. The expense of the test has been paid out of the 50c charge levied against each animal tested.

APPROPRIATES \$5,000

Indianapolis, Ind., Nov. 6—The Marion county council today authorized a special appropriation of \$5,000 for the expense of the special grand jury investigation of the affairs of Governor McCray. The appropriation was made to permit the grand jury to widen the scope of its investigation into the governor's financial transactions.

TRY A WANT AD

New Lines

This is the latest variation of the basque. The blouse fits snugly but with no suggestion of tightness or hidden corset stays. The skirt does not flare so much as in other seasons. The flounces are flat and the waistline just circles the hips.

THE IDEAL WAY: — They helped every one his neighbor; and every one said to his brother, Be of good courage.—Isaiah 41: 6.

Nobody's Business

What's everybody's business is nobody's business. That has been true of taxes and taxpayers since the beginning of time. It is seldom that an individual ever makes a complaint

against anything which will keep the tax rate ascending, but there are always plenty to be benefitted who will boost the things that keep tax rates mounting. The per capita tax in Rush county is now fifty dollars a year, double the amount ten years ago, and the same condition prevails in other counties of the state.

Every special interest imaginable is represented in the state legislature and in the congress, for that matter to guard against baleful legislation and to assist laws for their benefit. That is, every "special" interest except the taxpayer. The fellow who pays the bills has no one to keep his purse strings tight. He is unprotected, as it were, because he has no one to speak for him.

Now comes the Indiana Taxpayers association and proposes to act as his mouthpiece—that is, if enough of the taxpayers are willing and signify their willingness by joining the association and paying the nominal fee of one dollar a year.

The avowed purpose of the association is "to aid, encourage and promote the reduction of public expenses and taxes in the state of Indiana, and in the counties, cities and other political subdivisions thereof."

A temporary organization of a Rush county branch has been formed and a meeting will be held Saturday for the purpose of organizing permanently. This is an opportunity for taxpayers to be represented in the making of tax levies and in the making of laws that eat up the taxes. Responsible men with the highest motives are at the head of the state organization and they are seeking to bring about a vehicle that will honestly represent taxpayers.

Pleasant Dreams

If indications count for anything the United States will soon be taking part in a European talkfest on Ger-

many's capacity to pay reparations. If the word of Premier Poincaré is worth anything France will decline to consider any reduction in the amount of reparations from Germany, while at the same time advocating the canceling of the debts France and other allied countries owe to this country.

Inasmuch as all of the allied governments are heavily indebted to the United States, and we are not indebted to any other country, cancellation would be an interesting subject for us to discuss with our debtors—especially interesting for them.

But the proposition doesn't look good, sound good or smell good to us.

Men of wisdom always attend to their own affairs and expect others to do the same.

Everybody knows what the fool does.

Are we to play the fool for the edification and the financial benefit of Europe?

If we have any brains in this country this is a perfectly opportune time in which to use them—for our own benefit.

The Hodge - Podge

By a Paraphraser with a Soul

Suspicious people see a "catch" in everything, and they were right in the case of that conference of experts on German reparations.

Lloyd George said during his tour of the United States that the man under the steel helmet won the war. Whoever won it, there is no gain saying the fact that it was not won until the United States got there.

Some men get it in the neck, but even that does not stop their tongues from wagging.

Dempsey and Firpo plan to fight again, but they will permit enough time to elapse for fans to accumulate the price of an admission ticket.

There are those who insist that the more a man knows, the less he should be paid.

Folks who make hard jobs out of soft snaps are the kind who arrive in the end.

A scientist says the Pacific coast of America is due for the next earthquake shock. But it doesn't look like Hollywood could be shocked.

SAFETY SAM

In th' young lives o' too many motorists, th' sound of a street car gong means nothin' more'n something comin' in' that can gener'ly be beat over th' crossin' by a little hurry!

FIFTEEN YEARS

AGO TODAY

From The Daily Republican

Friday, November 6, 1908

Merrill S. Ball, a son of Mrs. Isaac S. Barrett, of this city, says the Greenfield Tribune, was elected commissioner of Rush county, Tuesday by a majority of 205. He defeated Ed Adkins, democrat, and Owen S. Henley, prohibitionist. Mr. Ball lived in Green township, this county, for many years. He is a big farmer, a fine young man and will make an excellent commissioner.

A fire was discovered in a large clover field on the Charles Frazee farm, one mile south of Circleville, early this morning by one of the hired hands. It is estimated that more than ten acres was burned over before the blaze was extinguished.

The children of Hamp Matlock will all try to meet with him next Sunday in a family reunion. They are Mrs. Belle M. Fox of Colorado, George Matlock of Greenfield, Smith Matlock of Richmond, Charles Matlock of Indianapolis, Will E. and James E. Matlock, twins, and Mrs. Viola Bell of Kokomo and Mrs. Maxie Bates and D. F. Matlock of this city.

Mr. and Mrs. J. G. Bennett of Indianapolis came last night to spend Sunday, the guests of Mr. and Mrs. Ed L. Beer in West Fifth street.

Congressman Watson is getting down to hard work already. Yesterday he accompanied Capt. Gowdy to his farm west of this city and put in some little time shucking corn. However, he quit before he became overheated or split a thumb.

Miss Ruth McMillin of Gings station visited Mr. and Mrs. Walter Smith today.

Mr. and Mrs. Frank McCrory, living north of Falmouth, entertained about fifty guests in celebration of their wooden wedding anniversary Wednesday night.

The opening dance at the Social club last night was a big success. The dance hall was beautifully decorated with corn stalks and autumn leaves. A light luncheon was served at mid-night. The out of town guests were Henry C. Frenk of Detroit, William Hall of Connorsville, Frank Cornell of Cambridge City and Miss Bertha Graves of Indianapolis.

A hunting party has been organized which will leave next Monday for Jennings county, where they will hunt quail. They will be gone one week and expect to camp in tents during the whole time. The party is composed of Jasper Case, Link Guf-

MRS. HICKEY
SO WEAK COULD
HARDLY STAND

Tells How Lydia E. Pinkham's
Vegetable Compound
Restored Her Health

Worcester, Mass. — "I had some trouble caused by a female weakness and got so run-down and weak from it that I could hardly stand or walk across the floor. The doctor gave me all kinds of pills, but nothing helped me. I happened to meet a friend who had taken Lydia E. Pinkham's Vegetable Compound, so I thought I would try it. After taking it a week I began to improve, and now I feel fine and am doing all of my housework, including washing, sewing and house cleaning. I have recommended your medicine to my friends, and I am willing for you to use this letter as a testimonial, as I would like to help any one suffering the way I did from such a weakness." — Mrs. DELIA HICKEY, 4 S. Ludlow St., Worcester, Mass.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass. This book contains valuable information.

ARLINGTON GAME ENDS IN A SCORELESS TIE

Athletic Club Holds Brookside Cubs
Scoreless And Puts Up Hard
Offensive Battle

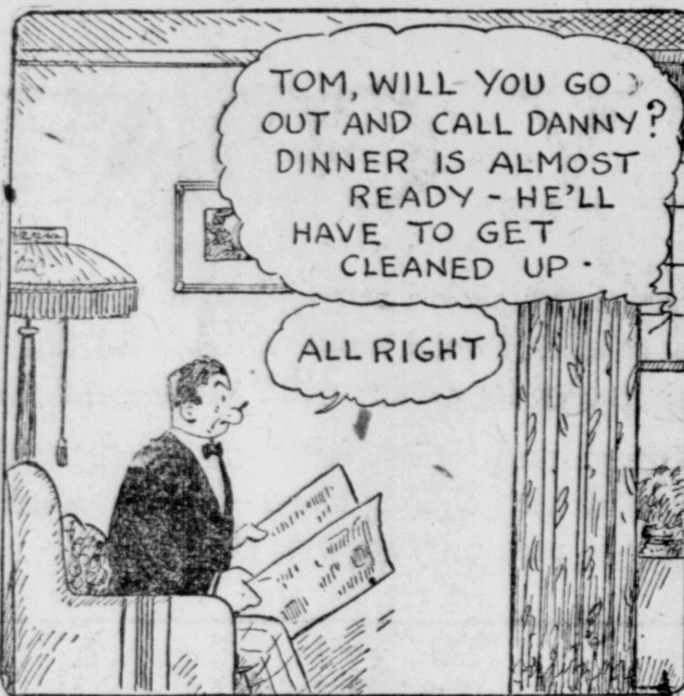

WICKER STANDS OUT IN GAME

Another hard fought game was played at Arlington Sunday, as predicted, between the Brookside Cubs of Indianapolis and the Arlington Athletic club when they played a 0-0 tie game on a very muddy field and in a drizzling rain.

Both teams fought hard, neither showing to advantage, though Arlington's team work was the best they have shown this season. Riley full back for the Indianapolis team, was their best ground gainer, while Johnny Wicker, playing full for Arlington, stood out above any player on either team. His line plunging was especially effective. He also made the longest run of the game, a 28 yard run through left tackle, shaking off the whole Indianapolis team except their safety man, who was able to stop him.

If weather is so that a game can be played, another game will take place at the Athletic field next Sunday.

TO OPEN SEASON AT ORANGE

R. R. R. Basketball Team Will Appear In New Suits Wednesday

The R. R. R. basketball team of this city, formerly the Keystone, will make their initial appearance Wednesday night at Orange, when they meet the independent team of that place. The local team is called the Rushville Rambling Romans, and their new suits of blue and white will be ready for the opening game tomorrow night.

Smith and Wood, guards and Culp The team will line-up with the following players: Tabor, Walker and Dagler, forwards; Crim, Readle, center.

CARD OF THANKS

We wish to thank our friends and neighbors for their kindness and sympathy extended to us at the death of our beloved cousin, Emma Gordon; also the Rev. Henry W. Hargett for his consoling words, the pall bearers the undertaker, Fred Caldwell, and the friends for their beautiful floral offerings.

Henry Wilson and Family.

Football Sportsmanship

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Nov. 6.—Sportsmanship is not confined to any particular line of activity on the field. Ethics of some sports are considered higher and are more generally respected and observed than in others.

Tennis, polo and golf, the more fashionable sports, are generally looked upon as those sports in which the competitor always grants the advantage of the doubt to his opponent.

Baseball permits judgment on only two doubts—in case of a question give the batter a hit instead of an error to the fielder and in a close decision on the bases favor the runner.

Ethics are carried to extremes in some sports. Bill Tilden, as the leader of tennis, went so far in being a sport that he tossed away a whole set in the recent Davis Cup matches to Jim Anderson because Tilden thought he had been given a break by a bad decision of a line judge.

For all around sportsmanship, for the general prevalence of "square deal" and gentlemanly conduct, collegiate football will rank with any of the popular American sports.

Little contrasts cropping out from time to time make some other sports suffer in comparison to the greatest of all college games.

Rowdy days are supposed to have passed in professional baseball, the so-called national pastime. There are few pitched battles on the field, in-

stances of slugging under the grand-stands are widely scattered since the type of player engaged in the game began to be elevated, but the spirit back of the players still carries a little of the old flavor.

"We'll cut that bird down if we get a chance," one of the Giant players said during the world's series about Babe Ruth.

Ruth, the Yankee star, had been charged by the Giants with going into the bases with his feet up. In baseball that is considered an overt act.

The Babe was not "cut down" during the series. Perhaps it was not because the chance was not afforded, because Ruth was on the bases often. It might have been that Ruth is rather large and capable with his fists and the player who resorts to "cutting down" is ordinarily not of the type that is willing "to go" in open combat.

It is not unethical in professional baseball for a competitor to take advantage of the physical weakness of an opponent. Neither is it that way in boxing. The stakes are too high in professional sports for the competitor to think of anyone but himself.

CARD OF THANKS

We wish to express our gratitude for all kindness shown us during the illness and death of our son and brother.

Mrs. Ella Bowen and Family.

Sideline Glimpses

Urbana, Ill.—Wisconsin's line is stronger than Chicago's, Illinois scouts warned Coach Zuppke's men as they started preparing for the Cardinal game here Saturday.

Madison, Wis.—Coach Ryan and his assistants began their efforts to instill a determination to win in the Badger team while scouts told stories of Grange's part in the Illinois defeat of Chicago.

Lafayette, Ind.—Rosborg, tackle, recently injured, was back in uniform when the Boilermakers went through a long signal drill, getting ready for the Ohio State game this week.

Columbus, O.—A shoulder fractured in the Denison game Saturday has put Bernard Schulist, guard, out of the game for the remainder of the season.

Chicago—Smartering from the defeat by Illinois, the Maroons tried out a flock of unused plays with the determination to win all three remaining games, starting with Indiana Saturday.

Evanston, Ill.—The Purple squad starts work today for the game with Lake Forest Saturday and the battle with Purdue the following week.

Bloomington, Ind.—Coach Ingram shifted Loerber to center in place of Wilkins who takes an end job and sent the Indiana gridders through a signal drill on a sloppy field.

IN DRAMATIC CLUB

Deryl Case, son of Mr. and Mrs. J. D. Case of this city, who is a student in Butler college, Indiana-Dramatic club, according to an an- nouncement in Butler College News in Indianapolis newspapers. He was one of the sixty members admitted The Rushville boy has also been elected to the Butler Glee club.

Social Notes

The Shakespeare Club will be entertained tonight at the home of Miss Henrietta Coleman in East Sixth street.

Miss Iona Hines, daughter of Mr. and Mrs. James Hines of Mays, and Hiram Hagerman, son of Mr. and Mrs. Jesse Hagerman of Spiceland, were quietly married Monday afternoon at the St. Paul's Methodist Episcopal church parsonage by the Rev. H. W. Hargett. Mr. and Mrs. Hagerman will live in Spiceland.

The helping Hand Society of the Homer Christian church will meet Thursday afternoon at two o'clock at the home of Mrs. Moll Sampson, living south-west of the city. Each member is requested to be present at this meeting, for plans will be made for the Thanksgiving exchange to be held in this city.

Among the first Bibles to be presented to the Rush county schools were given to the teachers of Richland township at the last business session of the Parent-Teacher's Association held at the Richland M. E. church Friday night, October 26. The program rendered at that time was highly appreciated by all present. The association's next meeting will be at the same place, Thursday, November 15.

Mrs. Alfred Looney entertained at her home in West Third street Sunday with a mid-day dinner, in honor of the birthday anniversary of her mother, Mrs. Laura D. Brooks. Those who attended the pleasant affair were Mr. and Mrs. Will Brooks, Mr. and Mrs. Orville Zimmer, Mr. and Mrs. John A. Tittsworth and son John Charles, Mr. and Mrs. Demp Norris, Smith Carney and daughter Zora, Miss Belle Mauzy and Russell Tittsworth, Harry Norris and William Brooks, Jr.

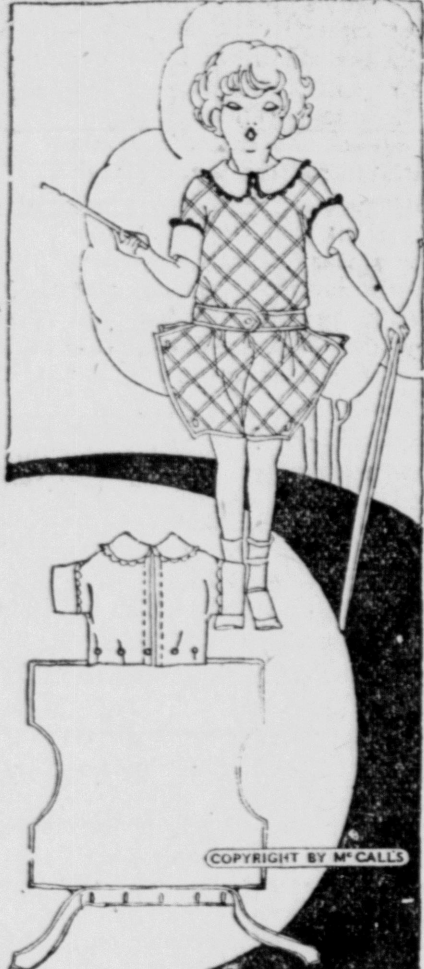

The regular meeting of the Woman's Home Missionary Society of the St. Paul's Methodist Episcopal church has been postponed until Thursday, November 15, on account of the Indiana conference meeting of the Woman's Home Missionary society which will be held in New Albany, Wednesday and Thursday of this week. The local society will be represented at this meeting by Mrs. J. M. Walker, Mrs. John Jordan, Mrs. Charles C. Parsons, Mrs. C. A. Dugal and Mrs. E. B. Poundstone.

The Monday Circle held a delightful meeting Monday afternoon at the home of Miss Jennie Madden in North Main street. Three papers were read at this meeting for the program, one on "Joseph Hergeshimer-The Man and His Books," by Mrs. Bessie Norris and two on "The Vogue of Sinclair Lewis," by Mrs. Jennie Payne and Mrs. J. B. Kinsinger. A general discussion followed these papers, in which several interesting points were brought out. A delicious luncheon was served by the hostess at the close of the program.

The next meeting of the Circle will be held Monday, November 19, at the home of Mrs. Ed Chambers. At this meeting Mrs. Demarechus Brown will give her experiences on her North African trip, and it will be guest day.

The three surviving sons of John D. and Emily Baylis Downey, born after the parents settled in the southern part of Noble township, nearly eighty years ago, and members of two later generations, held a reunion at the home of J. E. Downey in this city Sunday. The day quickly passed in the usual reunion greetings and reminiscences, in enjoyment of the delicious pitch in dinner, and in taking pictures of the various branches of the family. The members of the older generation were Mr. and Mrs. Mrs. L. B. Downey and Mr. and Mrs. J. E. Downey, of this city, Mr. and Mrs. M. H. Downey of Anderson and Mrs. Joe A. Downey of Indianapolis. Those of the younger generations present were Mr. and Mrs. A. J. McCullough, Luther McCullough, Miss Emily McCullough and Mr. and Mrs. Charles Downey and daughter of Indianapolis, Mr. and Mrs. Perry Downey and two sons of Orange, Mr. and Mrs. C. B. Matney of New Salem and Miss Della Downey of this city.

One-Piece Romper

A cleverly designed pair of rompers for a small boy or girl is made in one piece if one wishes or in two if one prefers, but in any case it is conveniently made for easy washing and ironing.

Mrs. Earl Winship entertained with two tables of bridge Monday afternoon at her home south of the city. Refreshments were served at the close of the card games.

Mr. and Mrs. Louis Bagley had as their Sunday dinner guests, Mr. and Mrs. James Lail of Indianapolis and Mr. and Mrs. J. C. Bagley and family of Logansport, Ind.

Mr. and Mrs. John Gartin entertained Sunday with a dinner at their home in Circleville, their guests being Mr. and Mrs. John Brooks and two daughters of Shirley and Mr. and Mrs. Ed Logan, living south of the city.

Mr. and Mrs. George Stout entertained with a dinner party Sunday at their home in North Oliver street. The guests were Mr. and Mrs. Luther Warrick and children. In this evening Mrs. Corda Sisoe and children were guests.

The Get-To-Gether club enjoyed a splendid social afternoon Monday at the home of Mrs. Manley Pearce, in North Main street. The ladies of the club assisted Mrs. Pearce in piecing a quilt and as a climax to the informal afternoon, the hostess served lovely refreshments.

The Band of Workers of the First Presbyterian church will meet Wednesday afternoon at the home of Mrs. J. D. McGee in North Harrison street. The assisting hostesses will be Mrs. Ruby Petry and Mrs. J. P. Hogsett. Each member is requested to be present as an interesting program has been prepared for this meeting.

Let's Go

National politics is "picking up." Earle S. Kinsley, Republican National Committeeman from Vermont, is shown after he had come from the White House. He is in Washington to enlist the aid of administration in the coming election in Vermont.

Dr. and Mrs. A. G. Shauck of Arlington entertained with a high noon dinner party Sunday, their guests being Mrs. Shauck's parents, Mr. and Mrs. Herbert Gilson of Toledo, Ohio, Mr. and Mrs. Fred Knecht and daughters Imogene and Kathleen, Miss Marie Warder and Dan Wolf. Sunday evening Mr. and Mrs. Gilson visited Mr. Gilson's mother, Mrs. Boone Gilson, living north of this city. They returned to their home in the evening Mrs. Corda Sisoe.

Mrs. May H. May went to Indianapolis today and will be the house guest of her brother and wife, Mr. and Mrs. L. C. Hinchman for a few days. She will attend the matinee at the Murat theatre Wednesday afternoon and will see "The Passing Show". While there she will also attend the National Flower Show being held in that city this week.

The first meeting of the Young Ladies Mission Circle of the St. Paul's Methodist Episcopal church, since its organization, was held Monday evening at the home of Miss Lavienna Compton in West Third street. Miss Winifred Muir, who has just returned from a trip around the world, gave the members an interesting talk on the earthquake in Japan. Miss Betty Innis rendered a piano solo and Miss Compton gave a reading about a little missionary girl. At the close of the interesting program, refreshments were served to those present by the hostess.

The War Mothers will meet at the assembly room of the court house on Wednesday afternoon at 2:30 o'clock and all members are urged to attend, as business of importance will come before the meeting. Plans for the "Forget-me-not" campaign will be taken up, as the sale of the flowers will be conducted by this organization. Mayor Thomas has given the organization permission to sell the flowers on the street, and approval of their plans.

Miss Mary Frances Clore entertained last Saturday afternoon with a bridge party at her home in this city, honoring her week-end house guest, Miss Margaret Lee, of Cincinnati, Ohio. Three tables of bridge were in session during the afternoon, the guests being the honored guest, Frances Kirkpatrick, Betty Wagoner, Katherine Green, Eleanor Lambert, Olive Logan, Laurette Abercrombie, Alice and Lucile Brown, Meriam Hunt and Ruth Allen. As a closing feature of the party delicious refreshments were served by the hostess.

Mrs. Charles Green entertained the members of the Monday Afternoon Card club Monday with a one o'clock luncheon at her home in North Main street. The appointments for the luncheon tables were carried out in fall flowers and besides the members of the club, Mrs. R. O. Kennedy and Mrs. Ray Compton were guests. Following the serving of the delicious repast the ladies gathered around the card tables and enjoyed the afternoon with Bridge.

New Head

Miss Ada Louise Comstock, former dean of Smith College, Massachusetts, recently was installed as head of Radcliffe College for women.

MAUZY'S

A TIMELY COAT SALE

THE WEE TOT

is given the same consideration in this store as his mother. If you doubt this, one inspection of the

BABY SHOP

will convince you. A visit now and then will keep you posted on the new things as they come in.

To further emphasize this store's attempts to put within the reach of practically every woman in this community, a good warm winter coat, this Coat Sale is announced. You will find the opportunity for choice quite ample in all sizes from 16 to 46.

Scores of attractive garments from our most reliable makers—the kind that will really protect you against winter's chilling blasts—will be offered for your selection. It will be decidedly to your advantage to choose now.

Coats that bear the original price tags
up to \$45.00

\$24⁸⁵

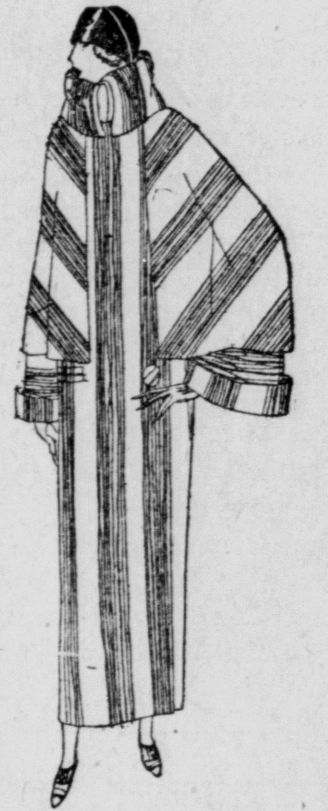

This sale is for
WEDNESDAY and THURSDAY ONLY

Warm Bedding

Piles and piles of comforters and blankets occupy a large section of our second floor. Easy to see and easy to choose, and all are moderately priced.

Stove Squares

It keeps us busy these days cutting off stove squares. The patterns, our customers tell us, are a little "different." Bordered patterns too—1½ and 2 yards square.

to keep your feet dry. Men, women and children are coming to Rubber Footwear headquarters to supply their needs.

THE MAUZY CO.

Majestic Range Demonstration THIS WEEK

Conference

Eleven million women of the United States were represented in person or by proxy at the biennial conference of the National Council of Women at Decatur, Ill., when it opened recently. Mrs. Philip North Moore of St. Louis is president.

SOY BEANS PRODUCE PORK VERY RAPIDLY

W. S. Walker, of Jefferson County has 46 acres of soybeans. On a field of 12 acres, Mr. Walker has 75 hogs that were turned in one month ago and at that time they weighed 50 to 75 pounds. They had been fed bran and shorts but after they were turned into the beans, this feed was stopped. They now weigh about 160 pounds showing what a very rapid gain on soybeans alone that hogs will make. In addition to the hogs, three weeks ago, ten head of cows were turned in on the same field each night. Before turning the cows in they received blue grass pasture and 4 pounds of bran and shorts per day with some alfalfa, but this ration was discontinued after they were turned into the soybeans. The cows gained five gallons of milk and produced \$3 more butter fat per week. Figuring the hogs making an average gain of 50 pounds, the twelve acres of soybeans will produce 3,750 pounds of pork and this figured at 8c per pound, means that the twelve acres produced \$300 worth of pork and in addition made a saving in the feed of the cows of \$62.20, making a total return for the twelve acres of \$352.20, not taking into consideration that the stem and stalk are left to turn under and improve the soil for the succeeding crops. Mr. Walker cooperated with County Agent, B. H. Doddridge in a soybean demonstration.

FOR ISSUING BAD CHECKS

J. N. Sims Accused of Causing Hope Bank to Close

(By United Press)

Columbus, Ind., Nov. 6.—J. N. Sims of Indianapolis was held under \$30,000 bond here today charged with issuing fraudulent checks.

The checks which were deposited with the state bank at Hope were said to have been the cause of the bank closing its doors two weeks ago.

It is understood that the loss to the bank totals \$30,000. Stockholders of the bank last week authorized a new stock issue to prevent the bank from being placed in the hands of a receiver.

According to the charges against Sims, he deposited checks in the Hope bank and withdrew the money before they were returned as worthless.

MARRIAGE LICENSES

A marriage license has been issued to Hiram Hagerman, a barber of Spiceland and Iona Hines, a resident of this county.

CHURCH ELECTION

All the members of the Ben Davis Creek church are requested to meet at the church Wednesday evening at seven o'clock for the election of officers and to transact other important business.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results.

Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

BANDITS GET \$2,380

St. Louis, Mo., Nov. 6.—Five bandits held up the Park Savings Bank just after the opening hour this morning and secured \$2,380 and escaped in an automobile. Three employees and a passerby were held captive while the robbers grabbed all the cash in sight.

MORE ROMATIC THAN A NOVEL

Why isn't a kitchen range more romantic than a novel? It is when you hear and see how a great range with a reputation comes in existence. The exhibit of the Majestic Range at Gann Haydon's, all this week, is a revelation in how much thought, skill and ingenuity goes into making your kitchen range the best possible cooker and baker. It is time well spent to attend this demonstration. Besides, you have a chance to obtain the choice of two fine sets of cooking utensils, absolutely free, if you decide to replace your old cook stove with a Great Majestic this week instead of later. —Advertisement

YOU WILL BE AS RICH AS CROESUS WHEN SCIENCE
ARRIVES AT A SOLUTION OF ITS NEWEST EXPERIMENT

The Man of the Future. He will be all-powerful. He will be possessed of a new force that will free him from his present struggle for the comforts of light, heat and energy. All of this will take place when Man learns the secret of the stars, the liberation of atomic energy. So says Professor Michael Pupin (inset).

(Copyright 1923, by NEA Service Inc.)
New York, Nov. 3—All of us will be as rich as Croesus—and richer—some day.
We will have—everyone of us—

the means of obtaining almost endless wealth, if science completes the discoveries which it has already made in part.
This is the prediction of no idle dreamer, but of a man who has made

some contributions to the world of science that have been revolutionary—Michael Pupin, professor of electro-mechanics at Columbia University since 1901, and chairman of the Committee on Aircraft Communica-

tions during the war.
“Just when that day will come, I do not know,” he says smiling. “But it will come. For science is making progress at a rate that years ago would have been considered impossi-

ble.
“When it does come, we will have wealth, not in money and gold, but in energy, which, after all, is the real thing.”

To get the full import of Professor Pupin's idea, a knowledge of the fundamentals of the atomic structure of matter is necessary.
“Every atom of matter,” explains the professor, “consists of electrons, positive and negative, the former being in the center of the structure with the latter circling around it like a satellite.”

“That is according to the well known and universally accepted theory of matter.”

“The simplest of all structures is the hydrogen atom which consists of only one positive center and one negative satellite. The atoms of all heavier substances, like helium, gold and other metals, all the way up to uranium, are made up of atoms of hydrogen.”

“In other words, the hydrogen atom is the fundamental brick of all atomic structures.”

“Since science began its detailed study into this atomic structure of things, more than 20 years ago, it has been trying to test this electrical theory of matter by breaking up the heavier atoms into their constituent parts of hydrogen.”

“And now at last science has succeeded!”

“It is able to smash these heavier atoms into smaller parts, and lo behold! the constituent parts are hydrogen and helium atoms.”

“It takes an enormous force to do it—for the atoms of hydrogen are thrown off with a velocity of more than 20,000 miles a second. The energy expended per unit of weight is enormous.”

“Now, if we could reverse the process, and combine atoms of hydrogen into atoms of heavier substances, imagine the amount of energy that could be liberated.”

“Each of us would be all-powerful. The scope of our work would be limitless. We would have more energy than we would know what to do with. There would be no coal strikes, no lack of wheat and power of any kind to worry us.”

“Professor Aston of England said once that if the hydrogen in the atmosphere were suddenly degraded into helium there would be enough en-

ergy developed to heat the whole earth to white heat!

“But there would be one drawback. The only free hydrogen available comes from the air. If we started using it to make heavier atoms, we might in time use up all the hydrogen. And then? But there is no use worrying. For that can't happen for a long, long time to come.”

“But the secret of this process of degradation of lighter atoms into heavier ones lies in the stars—and some day we are going to get it from them.”

In his autobiography “From Immigrant to Inventor,” just published, Professor Pupin says:

“Do not the young stars, the very hot stars, which always consist of gases of small atomic weight, obtain a supply of radiant energy from the degradation of atoms of small into atoms of high atomic weight, and, if this is so, then why shall we not some day learn this great secret from the stars?”

“The language of the stars has many deep secrets to tell; it mystifies me just as much today as it did on the pasture lands of my native village 50 years ago.”

But some day, the problem will be solved, Professor Pupin believes.

“And it will be solved the sooner science becomes organized for it,” he says. “Now in this country the National Research Council has been developed as an outgrowth of the war. Its work is not popularly understood yet, but soon I expect every person in the country to look upon it as the third arm of national defense—and some day it will be its first arm—a defense in peace as well as in war.”

CONSERVATION AIDS FARMER

Government Shows How to Salvage Meat and Shells of Mussels for Farm Use.

FOOD FISHES ALSO RESCUED

Simple Process Turns Waste Products of Mussels Into Good Fertilizer, Hog Food and Chicken Feed.

The farmers of this country will receive direct benefit from recent experiments conducted by the government in conserving the waste products of American mussel fisheries, according to a report recently issued by one of the bureaus in the Department of Agriculture.

Crushed mussel shells, from middle western streams, have been shown to be the equal of crushed oyster shells as a source of lime for laying hens.

The greatest industry connected with the mussel resources of this country is that centering around fresh water pearl shells. Thousands of dollars can now be saved annually by the production of poultry grit from the waste left after the shell has been cut for button blanks. Defective or broken blanks are put into a huge crusher, and the resulting dust has been found useful as an ingredient for stock food for hogs, as well as poultry.

Another important result of recent experiments showed that mussel meats may be used for fertilizer and also hog food. At the experiment station of the Bureau of Fisheries at Fairport, Iowa, ground mussel meats have been found to be acceptable to chickens when moistened to make a mash and mixed with grain. Dry mussel meats are a suitable food for chickens, having about the same value as fish meal.

Last year the Bureau of Fisheries rescued approximately 140,000,000 fish from the overflow waters of the Mississippi valley streams. The food value of these fishes was estimated at over \$6,000,000.

PEARL FISHERIES FORM UNIQUE INDUSTRY

Women Important Factors in Novel Occupations Centering Around Rivers in Mississippi Valley.

The pearl fisheries of this country are opening up new occupations for women. Eight thousand women are now said to be engaged in industries centering around the taking of fresh water shells from the rivers of the Mississippi valley.

American women in increasing numbers are being drawn into the work of pearling and shelling. They not only take the shells from the waters in their search for pearls, but they know how to carefully cook out the mussel meats and sort the shells that are suitable for the manufacture of pearl buttons.

Travelers along the rivers of middle western states often see women attending the vats in which they cook the mussels in order to remove the meats from the shells. These vats are crude, cast iron affairs, heated by driftwood fires.

Women Expert Operators
The first factory to make fresh water pearl buttons was opened in Muscatine in 1891, and this city is still headquarters for the industry. Women and girls do many different types of work. They do the grinding by which the rough bark of a shell is removed, and they are skillful operators of the automatic machines.

Home Work a Feature
One very important feature of the unique industry which has grown up around the fresh water mussel fisheries of this country is the work that can be done by women in their own homes. The placing of buttons on cards gives occupation to hundreds of women. The city of Muscatine has long been accustomed to the sight of women with their many little telescope grips, which carry buttons to and from the factories. The sorting and grading of buttons is distinctly a feminine occupation.

BE HANKFUL FOR HERITAGE, PLEA

calling a resident of Porto Rico, who came from America, an American, “he cautioned. “It willoffend them. We are all Americans in Porto Rico and those in America are continental Americans. We must remember that Porto Rico is a part of America and that its people are patriotic. The island does an annual business of \$250,000,000 and 92 per cent of it comes to the United States.

“You would think that life there is circumscribed, and it is to some extent. We ought to know more about Porto Rico because it will be a state some day. There are two states in the Union that are smaller and eighteen with a smaller population.”

Describing the people, he said they were great actors, dramatic and play the part all the time. They are good talkers, idealists, sentimentalists, but with some practical side after all. Many do not understand the relationship with the United States, regarding it as sort of a parent and child, he asserted.

Race pride and the false light in which some continental American have put the United States in the eyes of Porto Ricans, have combined to arouse some antipathy against this country, Mr. Thomas declared.

“I am glad to be a part of a movement,” Mr. Thomas stated in conclusion, “that will help those people to understand that the United States has a mission on the island.”

Thousands Renew Their Strength

The splendid tonic and regulating effects of Lyko have helped thousands of people who felt weak or lacking in energy to get back their “pep and punch.” This splendid preparation is a genuine aid to Nature—it helps to put strength into worn-out bodies.

ENDORSE FORGET-ME-NOT APPEAL

Coolidge and McCray Make Public Statements in Favor of Raising Funds For Invalid Veterans

NATIONAL APPEAL NOV. 10

President Expresses Hope That Forget-Me-Not Day Will Be Generously Supported by Public

Indianapolis, Ind., Nov. 5—Endorsements of the Forget-Me-Not appeal to raise funds for the invalid veterans, from President Coolidge and Governor McCray were made public today at the state headquarters of the Forget-Me-Not organization by Mrs. John Huntington, state director. The appeal will be made nationally November 10, designated Forget-Me-Not day.

President Coolidge's message addressed to James A. McFarland, national commander of the Disabled American Veterans of the World War, reads:

"I want to express to you that the observance of Forget-Me-Not day by the Disabled American Veterans of the World War, on Saturday, November 10th, will be generously supported by the public.

"The thousands who bear scars of the war will always hold their place in the hearts of the American people. You can be assured that those in places of national responsibility are striving to the utmost to aid and compensate them, so far as compensation is possible. Your organization has shown a fine spirit of co-operation with the government instrumentalities engaged in this difficult task, for which I am glad to express appreciation.

Governor McCray, in his letter to Mrs. Huntington, said:

"Your plan of raising funds for the Disabled American Veterans of the World War is indeed unique and I trust will be successful. There is no duty more pressing upon the people of this great country than to take care of its wounded and disabled soldiers.

"I wish you much success in your endeavors to raise funds for that most worthy cause."

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be tedious; it makes anyone so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, the great kidney live, and bladder medicine will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.

THE OLD HOME TOWN By Stanley

MOVIES

Hyena Has A Role

"In a long stage and screen experience one finds many actors who are temperamental to the nth degree but we recently encountered one who had them all lashed to the mast—a hyena." So said Director John Griffith Wray, director of "Human Wreckage," seen at the Princess Theatre again today.

"After three weeks of exhaustive search for a hyena who was vicious enough to carry out the ideas of our script, it took more than three weeks filming the action of the brute.

"He worked when he wanted to and when he didn't feel like it he didn't. We actually spent a whole day trying to get him to do one or two simple tricks for some double exposures. He growled from morning till night, he cut up yards of velvet with his claws and he even took a nip at the hand of one of the men trying to keep him within camera lines.

"But," said Wray, "we got some great stuff with this fellow.

"Big Dan" at Mystic

It seems that we can run away from nothing on this round earth of ours, without coming back to where we started. The earth is obviously round in its moral composition as well as in its physical. In "Big Dan," the Charles Jones production made by William Fox and presented at the Mystic Theatre again today a wife deserts her husband for a worthless, nugatory rone.

She did this while the husband was fighting in France. When he returns to his tenantless home he gives up his profession of boxing. The country training camp that was an inheritance from his famous pugilist father, he converts into an outdoor school for boys.

Later, his wife returns, broken in body and spirit, an abject penitent, victim of tuberculosis. His regard for her has died and she is sent to a Western sanitarium. Later still, while working on his new profession philanthropy, he meets and conceives a deep love for the beautiful daughter of an old man he has attempted to restore to health.

He is unable to declare his love by reason of his unfortunate marriage. In the meantime another takes advantage of his silence to demonstrate his own affection. The rival is a prize-fighter being trained by Big Dan for an important bout.

Considered from every angle the story and its development, the cast and its performance want nothing to be perfect.

IS A CANDIDATE FOR MAYOR AT LEXINGTON

A. G. McGregor, Formerly Superintendent of Schools Here, Wins Out in Primary Contest

IN REALTY BUSINESS NOW

Alfred Gay McGregor of Lexington, Ky., who was superintendent of the Rushville city school from 1900 to 1904, is a candidate for mayor of Lexington, according to an announcement in the Lexington Leader, who characterizes him as having polled a most remarkable vote as an "unknown" mayoralty candidate in the primary of last Saturday.

The article in the Lexington paper answers the question as to who Mr. McGregor is, and his life sketch is published. The former local man since leaving here was on the faculty at the University of Kentucky, and while there, became interested in real estate in Lexington, and through his efforts the cost of building sewers, was reduced 50 percent, according to the newspaper dispatch.

Mr. and Mrs. McGregor reside at 353 Lexington Avenue. During the past 15 years he has built 135 houses in that city and has opened several additions. In seeking to become mayor, he says his race is being made solely because he believes that he can render a definite service to the taxpayers of the city.

The former local man will no doubt be remembered by many Rushville people, and especially the pupils who attended school when he was superintendent.

TAXPAYERS HERE WILL ORGANIZE

Continued From Page One

A nominal fee of \$1 is charged as annual dues, all of the money to remain in the county in which it is paid, and to be used by the county association to meet running expenses.

Claud Cambren presided as temporary chairman of the meeting Monday and Roy E. Harrold acted as temporary secretary. Many men present expressed their approval of the association before it was decided to organize a county association.

Douglas Morris was the most forceful in his declarations for the need of an organization dedicated to the purpose of keeping down taxes. He expressed the belief that half of the money spent for roads could be saved without injury to the road system. He also asserted that money could be saved on schools and that too much is being spent on commissions.

Mr. Morris pointed out that the

YOUR OPPORTUNITY

This is your opportunity to place a NEW 1924 MODEL GREAT MAJESTIC RANGE in your kitchen at a real bargain.

By all means don't fail to see the NEW MODEL MAJESTIC—it's the last word in modern range construction. Many, many improvements have been added to this already famous range and its graceful stream line beauty will please you immensely. Make it your business to drop in our store at least one day during our

Over in Germany cash is out of the question when paying school fees. The children couldn't carry enough marks to pay the bill. So they bring teacher a sack of potatoes and some butter for a month's tuition.

Republican, and the trustees were unanimous in their praise for the publicity given the schools, and they will urge their principals to see to it that the items are supplied each week.

The plan this year is to have the page published weekly, and next year the Reflector may be published as a county school newspaper, and sustained by its own accord.

A series of tests, known as Intelligence tests is being planned for the schools within the next few weeks and this will assist the school authorities in the classification of pupils.

The session yesterday closed with a 40 minute talk by Mr. Farthing, who told of his observations in the Maryland schools and the system employed there, as related to the supervised work, organized around the county unit plan.

TRIBUTE PAID TO CHARLES H. BROWN

Continued from Page One

subject of many sermons by ministers and of many addresses and articles by laymen. We know of the fatherhood of God and this proves to me what the brotherhood of man means."

Mr. Brown was visibly affected by the tribute from Judge Sparks and the warm applause from the Masons present, indicating their approval of what the toastmaster said.

Mr. Brown recalled that three years ago Rushville council decided that it should be represented on the grand council and notified him that

he had been selected as the council's candidate. Mr. Brown said that he appreciated the honor, but that he realized he was only the means to an end.

He declared in conclusion that he hoped to be able to uphold the honor of Rushville council, so long as he remained a member of the council.

SILAGE EXPERIMENTS STARTED AT PURDUE

A great part of the winter feed of the dairy cows of Indiana is made up of silage. Corn makes up the most of this silage, but sunflowers, because of their large yield, have been used with some success as a silage crop in many parts of the country.

Last year for the first time sunflower silage was fed to dairy cows at the Purdue University Agricultural Experiment Station, and results favorable to sunflower silage were obtained in comparing sunflower silage; mixed corn and sunflower silage and corn silage. A similar trial is being started again this fall, the results of which should be available about the first of the year.

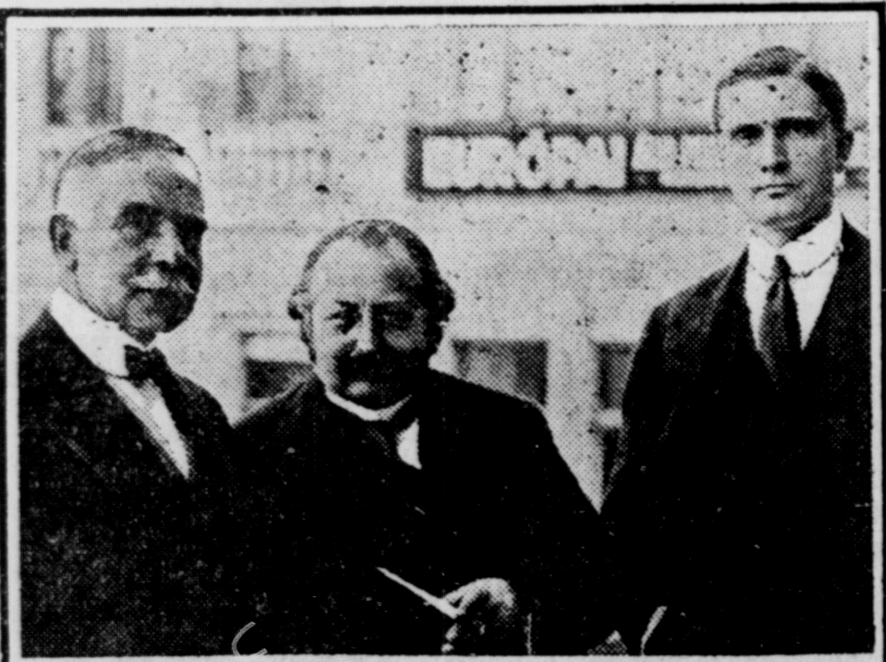

Another silage experiment is also being started making a comparison between the value for milk production of silage made from yellow dent corn and that made from a common variety of ensilage corn. The ensilage corn has been out-yielding the yellow dent corn in tonnage, and this comparison is expected to show the relative milk producing value of these two kinds of corn when made into silage.

CONCERNED ABOUT 1924 SEED CORN

Farmers Advised to Select Enough
to Plant Crop From Old Corn if
They Have it on Hands

THIS YEAR'S CORN SAPPY

Will Take as High as 85 Pounds to
Make a Bushel After it is Dried
Out, According to Estimates

Because of the present condition
of the corn crop, Rush county farm-
ers are concerned about their supply
of seed for next spring and well they
should be for seed corn is going to
be seed corn next spring. According
to the county agent, corn is so sappy
that it will take as high as 85 pounds
to equal a bushel after it is dried out.

The high moisture content means
added danger to germination from
freezing and an effort should be
made during the husking season to
get out as much seed as possible and
hang it so that it will dry out as
quickly as possible. The germination
is not yet destroyed although there
have been some severe freezes and if
dried out at once, it will still be pos-
sible to obtain seed from the field.

Method of storage is more import-
ant than time of gathering. Corn
may be gathered from the standing
stock way in advance of shucking
time and before frost, but if piled up
where it will not properly dry out it
may be inferior to seed selected after
a freeze and stored so that it will dry
quickly.

The farmer who has old corn on
hands will do a wise thing if he will
select enough good ears to plant his
crop. New corn is to be preferred,
however, because it usually sprouts a
little sooner than old seed. But a

TESTING PROCEEDS RAPIDLY

During September 430,191 Cattle
Were Tuberculin Tested

During September, 430,191 cattle
were tuberculin tested under the
systematic plan of tuberculosis erad-
ication conducted by various States
and the United States Department
of Agriculture. A total of 14,604 re-
actors was found. The elimination of
these diseased cattle during the
month is the first step in freeing the
herds, in which they were found,
from the disease, as well as being a
measure for human welfare. The pop-
ularity of tuberculin testing among
livestock owners is shown by the ex-
tent of the waiting list, which at the
end of September consisted of 146,
487 herds.

ONE OUT OF EVERY 25 HOGS DIES OF CHOLERA

Appraisal of Ravages of Hog Chol-
era is Made by Bureau of Animal
Industry For Year 1923

DISEASE IS PREVENTABLE

Approximately 4 percent of the
hogs on farms in the United States
died of hog cholera last year. This
appraisal of the ravages of hog
cholera is made by the Bureau of
Animal Industry, United States De-
partment of Agriculture, for the year
ended April 30, 1923, and is based
on estimates of the Bureau of Agri-
cultural Economics. Losses were
heaviest in Iowa, Nebraska, Indiana,
Missouri, Illinois, Ohio, Georgia,
Minnesota, and South Dakota in the
order named. Each of these States
lost more than 100,000 head of swine
from the disease during the year, as-

FARM BUREAU TO MEET DEC. 6 AND 7

All Departments of State Federation
Are Pushing Their Activities And
Members Reap Benefits

HANDLE 300 CARS OF COAL

Many Speakers to be at Annual
Convention in Indianapolis—
Purdue President to Speak

All departments of the Indiana
Farm Bureau are pushing their ac-
tivities, and members are reaping
benefits from their association with
the farm bureau. With considerable
hog cholera in the state many hog
raisers are cashing in on their mem-
bership in the farm bureau as the
result of contractual relations made
with the Swine Breeders' Pure Serum
Company, of Thorntown, Ind. Under
this contract a part of the buy-
ers of the company, which is
owned by the farmers, goes back to
the members, thus resulting in re-
duced prices for serum at a time
when it is most needed.

So far this fall the purchasing
department of the Indiana Farm
Bureau Federation has handled more
than 300 cars of coal for its mem-
bers. Questionnaires sent out to buy-
ers of farm bureau coal show that
a very satisfactory grade of fuel is
being laid down for them at a cost
considerably below the regular mar-
ket price. J. D. Kirkpatrick, who has
been manager of the Bartholomew
County Shipping Association, a farm
bureau organization, has been added
to the state forces for the purchas-
ing department. He will have charge
of the feed.

Much interest has been aroused in
the campaign for membership, which
Continued on Page Two

FARM INSTITUTES WILL BEGIN SOON

Institute Scheduled From Purdue
Shows 500 Meetings Scheduled
For This Season

WILL OPEN NOV. 20

Speakers on The Staff Will Include
36, Including Many New Ones
—Season Ends March 1

Lafayette, Ind., Nov. 6—Nearly
500 farmers' institutes are sched-
uled to be held in Indiana during the
next few months, according to the
institute schedule for 1923-24, which
is being mailed out from the Agri-
cultural Extension Department of
Purdue University. Prospects now
are for the best institute season in
the history of this work, according
to W. Q. Fitch, state leader of in-
stitutes. Meetings will be held in ev-
ery county of the state.

The season will open Nov. 20, with
institutes at Union, Pike County;
Floyd Knobs, Floyd Co.; Elizabeth,
Harrison Co.; Vallonia, Jackson Co.;
Mooreville, Morgan Co.; Pilot Knob,
Crawford Co.; Unionville, Monroe
Co.; Pekin, Washington Co.; Rich-
land, Spencer Co.

Speakers on the institute staff,
which numbers 36, will be at these
various meetings on the opening day
and many of them will be busy near-
ly every day for the next three
months. The season will close March
1, with meetings in the northern
half of the state.

The institute staff this year in-
cludes several new speakers, but all
are practical farm men and women
from over the state who have made
a success of their respective lines of
work. The list of speakers this year
Continued on Page Two

SOUTH AFRICA AT CORN EXHIBITION

Eight Different Entries of Corn From
That Country Will be at Interna-
tional Show

AT CHICAGO, DEC. 1 TO 8

Among The List Will be Palin's Corn
Flake Corn, Which Won \$1,000
Kellogg Trophy

Lafayette, Ind., Nov. 6—Eight
different entries of corn from Trans-
vaal, South Africa, some of which
was grown from seed obtained from
Indiana's world famed corn breeders,
will be on exhibit at the Internation-
al Grain and Hay Show to be held
in Chicago Dec. 1 to 8. This was
the word received today by W. Q.
Fitch, of the Agricultural Extension
Department of Purdue University
who will serve as assistant superin-
tendent and will be in direct charge
of the show again this year.

E. A. Papendorf, of Reismierbult
Station, near Johannesburg, vice-
president of the South Africa Maize
Breeders, Growers' and Judges' As-
sociation, who advertises on his let-
terhead that he is a breeder of "Palin's
Corn Flake" wrote Mr. Fitch that
he and seven other growers were
sending samples Sept. 13, so as to
reach Chicago in time for the show.
He enclosed several photographs of
corn grown in South Africa and
which was shown in their spring
show held at Johannesburg Sept. 5
and 6 and from which the entries
were selected to send to Chicago.
Palin's Corn Flake corn was estab-
lished by Fred C. Palin of Newtown,
who won the \$1,000 Kellogg corn
trophy awarded at the National Corn
Show at Omaha, Neb., in 1909. Pa-
Continued on Page Two

SOY BEAN PRODUCTION EQUAL TO LAST YEAR

Larger Percentage of Production
Than Ever Before Will be Made up
of Early Varieties

OFFER GROWERS HIGH PRICES

The 1923 production of soy beans
is expected to be equal to or slightly
larger than that of last year, ac-
cording to information obtained by
the U. S. Department of Agriculture.
The smaller acreage in eastern North
Carolina is offset by a somewhat
higher yield per acre in that section
and a prospective increased produc-
tion in South Carolina, Delaware,
Indiana, and Illinois.

A larger percentage of the total
production than ever before will be
made up of the early maturing var-
ieties because of the indicated in-
creased production in Delaware and
the Corn Belt States. The production
in the latter section, however, is not
so large as conditions earlier in the
season indicated. Local frost damage
around the middle of September re-
duced the yield somewhat and in
some instances influenced growers to
cut their soy beans for hay. A fact
of considerable importance is the
large increase in the available quan-
tity of the Manchu variety which has
proved to be highly adapted for
growing over a wide area in the Cen-
tral West.

The supply of Mammoth Yellows
probably will be slightly less than
last year because of the 5% smaller
production reported for North Caro-
lina. This should be sufficient to sup-
ply the demand, however, because the
early varieties from the Corn Belt
States are being used to some extent
in areas formerly using Mammoth
Yellows exclusively.

SOYBEAN CROP IN EXCELLENT YIELD

Purdue Gets 26 Bushels to Acre by
Using Good Methods on Slash-
land in Jennings

BEST RESULTS ARE SEEN

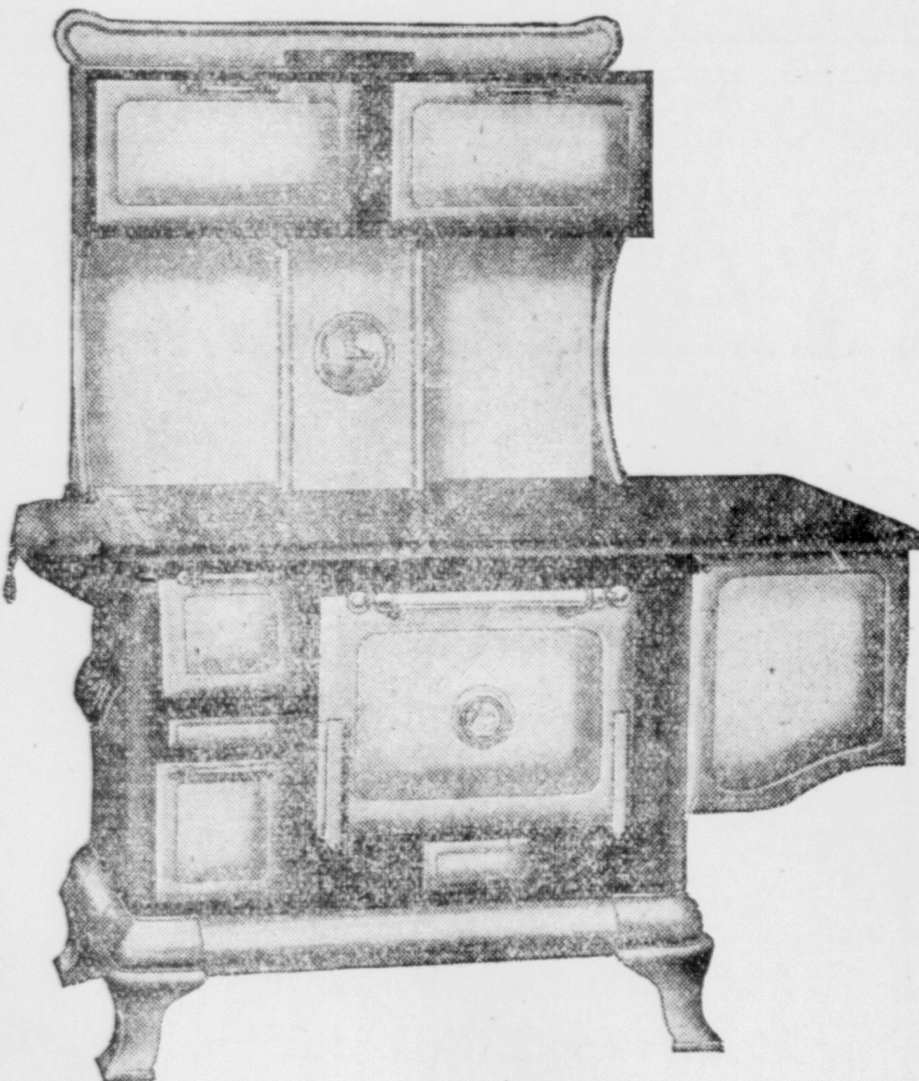

Test Was Made on Experimental
Farm And Crop Harvested in Fine
Weather, Report Shows

The 10-acres of soybeans on the
Jennings County Experiment Field
operated by Purdue University Agri-
cultural Experiment Station aver-
aged a little over 26 bushels per
acre. The beans ripened in good time
to harvest during the fine weather
which prevailed the first week in
October and were in excellent condi-
tion for threshing. Undrained, un-
treated land made 16 bushels per
acre. On undrained land where lime-
stone was applied three years ago
and fertilizer used on corn the yield
was 24 bushels.

G. P. Walker of the Purdue sta-
tion staff who is in charge of the
Soils & Crops experiment fields over
the state, stated that this is a fine
yield of beans and shows the possi-
bilities of soybeans as a regular
field crop for the slash land.

"Soybeans can stand wet land bet-
ter than corn. They will make a good
yield of rich hay and a fair yield of
seed on the undrained slash land
and should be grown on every farm
in southeastern Indiana where clover
is not grown every year," he said,
in commenting on the value of this
crop. "The yield of 16 bushels per
acre on the untreated land that
made only 20 bushels of poor quality
corn for the last two years shows
what this crop will do on this land."

STOVE WEEK AT POLK'S HARDWARE STORE

Demonstration All Week Nov. 5th to Nov. 11th

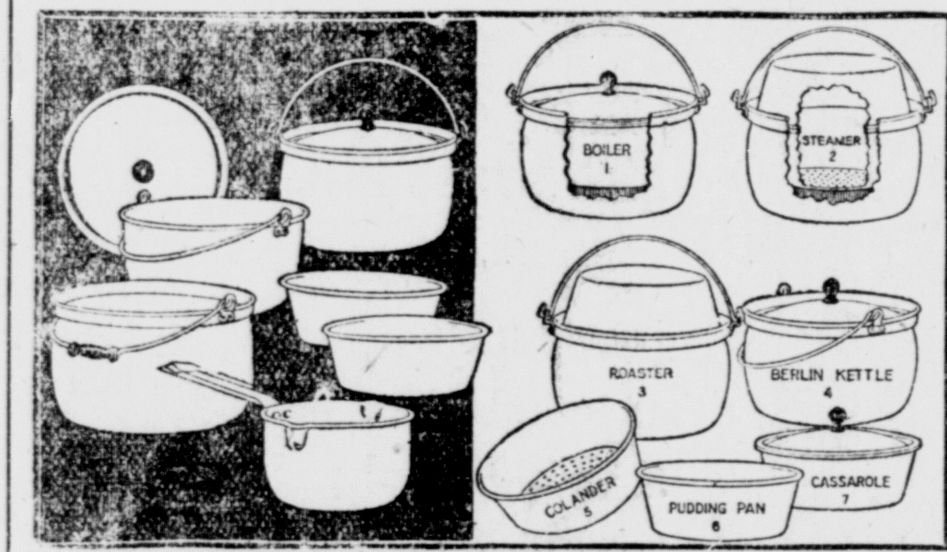

The Factory Representative will be here all week to explain why the
COPPER - CLAD RANGE

has 36 Exclusive Features which cannot be found on any other Range
Don't Forget the name **COPPER-CLAD**. The Stove with **COPPER LINING**

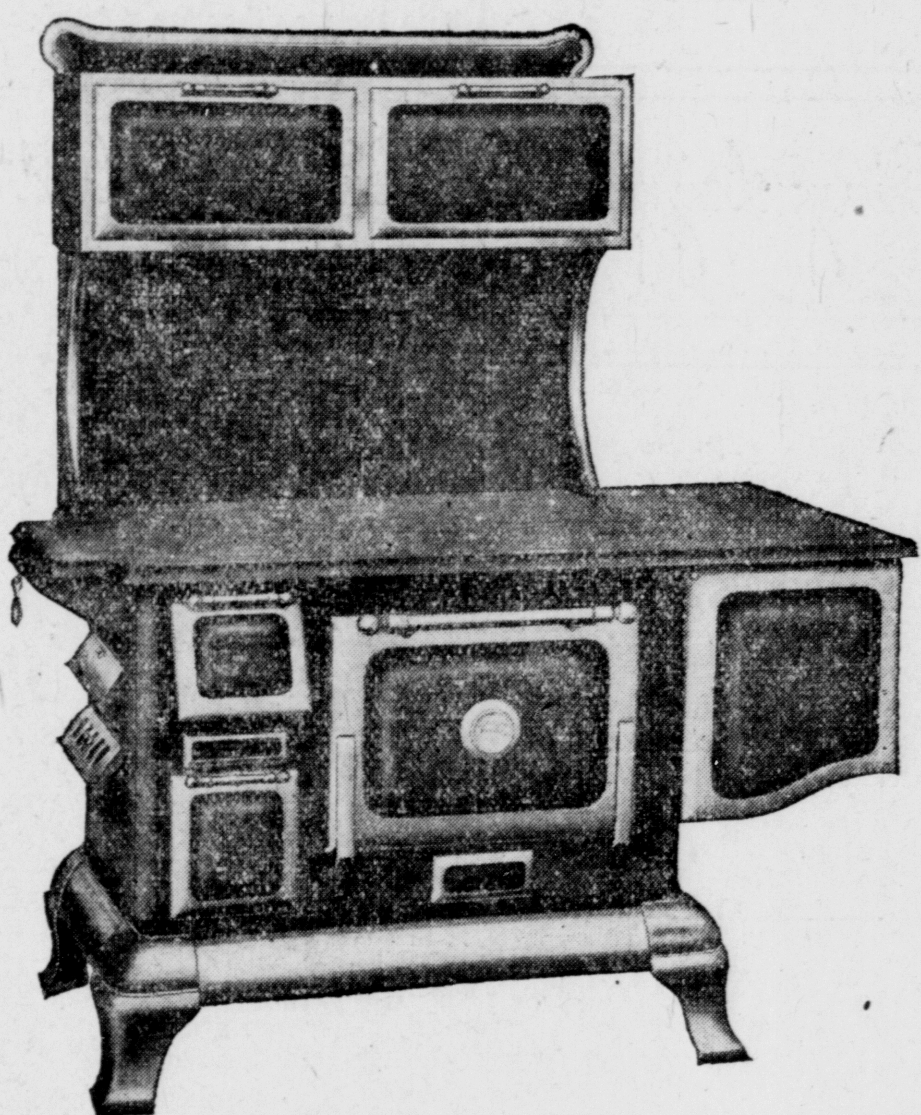

Free!

Free!

Free!

ONE COMPLETE SET OF
PYREX BAKING GLASS-
WARE OR A COMPLETE
SET OF BEAUTIFUL
ALUMINUM GIVEN AWAY
WITH EACH COPPER-
CLAD RANGE THIS WEEK.

MORE FOR YOUR MONEY — You
get more for your money when you
buy a Copper-Clad. You get a range
lined with Pure Sheet Copper — a
range that will serve you well and
long.
You get a beautiful range—one easy

to keep clean. No hinges, catches,
latches or springs — a scientific
wonder.
If your old range is rusted out, if it is
covered with bolt heads and dirt catch-
ing frills, you will appreciate the plain
smooth surface of the Copper-Clad.

The Copper-Clad range is so superior
to any other range that even to the
present time we have never ordered
grates, back, walls, etc., that are fre-
quently ordered for other ranges.
Many Copper-Clad ranges are used in
Rush County by satisfied users with-

out an exception. They bake even.
Don't fail to call this week and just see
the range that won't rust out.
If you never expect to ever need a
range, call and see this beautiful range

CONCERNED ABOUT 1924 SEED CORN

Continued From Page One
reserve of old corn that will do for planting may come in handy if the new corn proves inferior in germination.

The schools of the county have

been doing their part to help get in a supply of good seed. The various classes in agriculture have not only been studying seed corn in the classroom, but each boy has selected and stored a minimum of fifty ears of seed.

FARM BUREAU TO MEET DEC. 6 AND 7

Continued From Page One
is now under way. Starting in the northeast part of the state the campaign is proceeding by townships, counties and districts, and reports of the first week's work are very encouraging.

Plans are being made for the fifth annual convention of the Indiana Federation. It will be held at Indianapolis December 6 and 7, and among the speakers will be Aaron Sapiro, secretary of the Kentucky Farm Bureau Federation, and E. C. Elliott, president of Purdue University.

The Indianapolis Producers' Commission Association handled 234 carloads of livestock during the week ending October 27, about 26 percent of the total business handled at the Indianapolis stockyards during the week. Better than one-fourth the total business is being handled at all times. While the total for the week in carloads is not so great as for the same time last year, this is accounted for by the fact that the growers are holding back their stock in order to put on as much weight as possible while good weather remains.

FAR INSTITUTES WILL BEGIN SOON

Continued From Page One
is as follows: Mrs. Morton Fordice, Russellville; Mrs. R. M. Brown, Goshen; Mrs. R. D. Canan, W. Lafayette; Mrs. F. L. Clark, West Lebanon; Mrs. Wm. Goldsmith, Spencer; Mrs. Etta M. Williams, Crawfordsville; Mrs. C. H. Lindley, Salem; Mrs. R. A. Ogg, Greencastle; Mrs. L. T. Peirce, Knightstown; Mrs. W. C. Roberts, Bedford; Mrs. Chas. Sewell, Otterbein; Mrs. J. W. Spindler, Grapeland; Mrs. E. T. Stanley, Liberty; Mrs. Carl Tuttle, Pleasant Lake; Mrs. Bessie Zigler, Converse; W. A. Baldwin, Greencastle; M. J. Briggs, Macy; L. O. Chasey, Marion; Addison Drake, Farmersburg; P. R. Egerton, Marion; J. B. Edmondson, Clayton; C. C. Fisher, Winchester; M. C. Johnston, Aurora; F. L. Kem, Marion; Maurice Lafuze, Liberty; E. E. Luzadder, Red Key; Wm. Madigan, Veederburg; I. J. Matthews, Winamac; W. O. Mills, Mooresville; Chas. Meharry, Attica; H. R. Muller, Cedar Grove; R. A. Ogg, Greencastle; W. H. Senour, Brookville; C. F. Spaulding, Monroeville; H. M. Widney, St. Joe.

Backeye nuts will soon begin to fall. Where they occur in large numbers it will pay to rake and burn them as they are poisonous to livestock.

BALANCED RATION PAYS BROWN CO. PRODUCERS

Of the 51 farmers in Brown county keeping egg records in the state Contest conducted by the poultry extension division of Purdue university 32 are feeding a balanced ration and 19 are feeding unbalanced rations. The 32 co-operators feeding a balanced ration are using the Purdue Standard Laying Ration and are using tankage as the animal protein in the mash. The 19 feeding the unbalanced ration are feeding corn and wheat, corn alone, corn, wheat and bran or corn, bran and shorts. The ten best records of the flock where a balanced ration is fed, received an average of 98 eggs per hen from a total of 1053 hens during the six months' period, March 1 to August 31. During the same time, the 912 hens in the ten best flocks receiving an unbalanced ration, laid an average of 61 eggs per hen. The hens receiving an animal protein in the mash laid 37 eggs more per hen than those which have received no animal protein in the mash. The flocks fed tankage are still laying while those which received no tankage or other animal protein have about quit laying. The best flock composed of 140 White Leghorns have laid an average of 124.9 eggs per hen during the six months, March 1 to August 31. This flock has had the best of care and received the Purdue Laying Ration. The poorest flock of 110 mongrel hens has laid an average of 43.1 eggs per hen during the same time. This flock has been fed corn alone and most of the hens roost in trees.

SOUTH AFRICA AT CORN EXHIBITION

Continued on Page Two
pendorf got his seed originally from Mr. Palin's corn.
The United States Government now has an embargo against ear corn from Africa because of danger of bringing in disease of insects which would damage American crops. To get around this embargo, however, the corn is being sent the Department of Agriculture at Washington, at the request of the Grain Show Management. It will be sterilized there before being sent to Chicago.

ONE OUT OF EVERY 25 HOGS DIES OF CHOLERA

Continued From Page One
suming that 80 percent of the deaths from all causes among hogs is due to cholera. The total number of swine lost from hog cholera exceeded 2,250,000, valued at approximately \$29,393,000.
The highly contagious nature of hog cholera makes the disease difficult to control. The preventive serum treatment, combined with strict sanitation and thorough disinfection of premises after outbreaks, are the most effective control measures. The losses reported for last year are not so great as in 1913 and 1914 when the disease appeared particularly prevalent, but they were larger than department experts consider they should have been considering that swine growers have a preventive treatment which is effectual, if used properly before the animals become sick.

SOYBEAN CROP IN EXCELLENT YIELD

Continued from Page One
The soybeans on this field were the Manchu variety drilled solid the first week in June, six pecks per acre. The seed was thoroughly inoculated by mixing soil taken from around the roots of last year's crop. The inoculation was helped farther by beans having been grown with a previous corn crop. Part of the field was cut for hay in August, yielding three tons of cured hay per acre. The rest of the field, about 10 acres, was cut for seed with a binder after most of the leaves had fallen, shocked two and two, and threshed when dry. The ten acres threshed out a little over 260 bushels of seed. Six acres of the land was tile drained and the other four acres untilled. No fertilizer was used on the beans but all except one-half acre was limed at the rate of 3 tons per acre in 1921, and the two crops of corn grown in 1921 and 1922 were well fertilized.
The soybean stubble was disked, culitpacked and seeded to Purkoff wheat just after the fly-free date and fertilized with 300 pounds of a 2-12-6 fertilizer per acre. This wheat is the new variety which has yielded so well in the local variety tests the past two years and its performance will be watched with interest.

PRODUCERS ENLARGE OFFICE

Allen County Farmers
Get More For Their Milk

For over two years the County Agent and dairymen of Allen County have been studying the milk market situation in Ft. Wayne, with a view in increasing the price to the producer without cost increase to the consumer. The milk producers were brought together and induced to organize, pooling their product for sale for five years through their association. The original plan was to retail milk direct to consumer and each farmer producer signed a note for \$30 for each milk cow on his place. The Association was incorporated and a retail plant purchased. The distributors who heretofore had assumed a very unfriendly and antagonistic attitude before, upon the announcement of the purchase of the plant, asked for a meeting to discuss probability of co-operation. The meeting was called and after many other conferences a contract was drawn up and signed by about twelve of the larger distributors and the Dairy Marketing Association whereby the distributors contracted to purchase all of their milk and cream from the Association on the latter's weights and tests, the Association agreeing not to engage in the retail business. The present price is \$1.85 per 100 lbs., of 3.5% milk at the farmer's gate or \$2.25 delivered. The new price adjustment will be on a 50-50 basis with a guaranteed minimum of \$2.78 for 3.6% milk. When milk retails at 12c per quart the Association will receive \$2.78 for 3.6%.

When milk retails at 13c per quart the Association will receive \$3.01 for 3.8%.

When milk retails at 14c per quart the Association will receive \$3.24 for 4%, as a base price so the new arrangement will mean at least 65-70c increase per hundred for all who sign contracts. The amount of milk signed will be about 5,000 gallons per day. Figured on this basis at 65c per hundred increase, it will mean from \$75,000 to \$100,000 per year for the milk producers of Allen County. It also means that from 500-600 men who never were in the Farm Bureau will no be brought in as a result of this action and the producers and distributors will be working in harmony.

MANY CRIMES AGAINST TRUTH ON SUBJECT OF "SOUND CURRENCY"

How demagogues are using false doctrines of so-called "sound money" to give themselves or the class they represent unfair advantages at the expense of real producers is exposed in the Journal of the American Bankers Association by H. Parker Willis, expert on the money question.

"There is no subject in whose name more crimes against truth have been committed than that of 'sound currency,'" Mr. Willis says. "The term is always resorted to by demagogues. At the present moment there seems to be a danger that it will be used by a potential presidential candidate as representing the 'platform' upon which he expects to run. There is no question that more nearly and directly touches the immediate welfare of every class in the community."

Primary functions of money and

currency, it is explained, are to serve as a means of exchanging goods and as a means of measuring the value of goods. Mr. Willis continues:

"Demagogues and those who are disposed to mislead the public for various ulterior reasons have succeeded in disseminating an entirely different view of the purpose of money. Some of them contend that the soundness or best currency is that which is so arranged as to bring about a 'fair' redistribution of wealth. They want a constantly depreciating currency—one which keeps playing into the hands of the seller of goods, by enabling him to count confidently upon higher prices in terms of money so that he pays the producer from whom he has obtained them less and less. It is a strange thing that this kind of currency is often highly praised or favored by the producer himself, not-

withstanding that he is the greatest sufferer from it."

There is another popular view of sound currency which aims to base it upon "natural products" or "natural forces"—usually it is true, specifying products or forces which have been monopolized or can be controlled by the advocate of such currency. Thus from time to time there have been schemes to issue a currency based upon or protected by farm products stored in warehouses or occasionally representing "units" of energy or horse power.

The rulers of Soviet Russia at one time attempted to introduce a currency representing "labor time," each man receiving a check representing the number of hours of time he had put in at work, while goods themselves were to be valued in terms of hours of production time. Thus one man who put in an hour's

time in street cleaning received the same control over goods as he who put in an hour's time at surgery. The theory was that this kind of "sound" currency enabled the "poor man" to get a larger supply of goods.

"The trouble was that when those who could perform a certain kind of labor were not paid in proportion to their effort they stopped making goods. So it was not very long in Russia before the sound currency which was issued in favor of the poor man had brought it about that the poor man could not buy anything with the currency. This was an unfortunate kind of 'soundness'. We do not want something like it in the United States today, yet very similar proposals are now being made in a good many quarters that ought to know better," says Mr. Willis.

THE PROOF OF THE BARBERRY PUDDING

Indiana Farmer's Guide: That barberry eradication is proving an effective control of heavy black stem rust epidemics has been demonstrated in a number of cases this summer. During the winter The Guide carried a story in Dr. C. T. Gregory's series which told of the rust spread in Rush county from a 100-year-old bush on the Darius Patterson farm and gave an account of the damage to the crops in 1922 and preceding years. The bush was destroyed last fall. In 1923 the area was free from rust and Mr. Patterson said that this was the first time his wheat had escaped since 1882.

The Guide also carried a story of the severe rust damage last year which was traced to common barberry in Decatur county near Alert. The bushes were destroyed and this summer an inspection revealed that farmers whose fields were not worth harvesting last season had 20 bushel yields this year.

A number of cases of heavy rust closely associated with the common barberry were observed this year. In Shelby county a field of wheat on the Landy Brown farm was planted near a large common barberry bush. The part of the field nearest this bush did not yield over three or four bushels to the acre, Mr. Brown said, because of the severe rust infection.

Along the bank of the Flat Rock River in another part of the county, four large common barberries were found. These bushes caused an infection in several wheat fields just across the river. A 35-acre field nearest the bushes yielded only 13 bushels to the acre. The field next removed yielded 18 bushels. Other fields, farther away, showed higher yields.

In Randolph county, not far from Huntsville, considerable rust was noted on a field of wheat. From five to ten rods away two large common barberry bushes were found. The grain nearest these bushes was heavily infected and the kernels badly shriveled. As the distance from the bush increased the amount of rust decreased until it finally disappeared.

MONEY FOR FARMERS

Eight million dollars of intermediate credit is already in farmers' hands and the Federal Farm Loan Board has accepted commitments involving loans of \$8,000,000 more, according to M. L. Core, who has charge of setting up the Intermediate Credit System.

STATE PRESENTS MANY WITNESSES

Attempts to Prove That Ed Herbert Had 60-Barrel Vat of Mash in Wheat Field on Gings Farm

CONNERSVILLE POLICE HERE

Defense Attempting to Prove Mash Was Not Liquor And Was Not Made for Purpose of Sale

Ed Herbert of Gings was still on trial today in the circuit court on the liquor law violation charge, and it was not expected that the case would be given over to the jury before some time Wednesday morning.

Judge Fremont Miller of Franklin, Ind., is acting as special judge in the case, and the jury is hearing the evidence and will pass on the matter.

The defense was presenting testimony this afternoon, as the state finished up shortly before eleven o'clock this morning. The state produced many witnesses, in order to convince the jury that the defendant had a 60-barrel vat of mash on his farm, in the middle of a wheat field, last June.

Chief of Police Ketchum and Patrolman Jones of Connerville were witnesses for the state yesterday afternoon when they testified concerning the arrest of Herbert and Ralston Garris, 15-year-old boy, in that city last June.

The arrest of the boy in an intoxicated condition led the officers here to the Herbert farm, and the search was made, which is said to have uncovered the barrel of mash.

The Connerville officers also presented a quart bottle of "red liquor" partly filled, which they said was found in the machine on the night that the arrests were made.

The defense today was attempting to establish proof that the barrel of mash was not liquor, nor was it made for the purpose of sale, and that it was kept there as a hog food, or mash, and that it was carried to hogs in a pen in a nearby field.

The jury will have to decide from the evidence whether or not the mash was manufactured with illegal purposes.

The state case against Earl Perkins, charged with arson, is scheduled to be tried Thursday before a jury. In this case the defendant is accused of setting fire to a building at the corner of Seventh and Arthur streets last April. Sheriff Hunt today was summoning witnesses for that case.

EPIDEMIC OF MEASLES IS SPREADING NORTH

Several Cases of Disease Reported From Milroy Vicinity Following Williamstown Deaths

STRICT QUARANTINE URGED

The measles epidemic which is sweeping Williamstown, and which resulted in three fatalities in the last few days in that town, is now making its appearance in Milroy, and officials in the schools and physicians are being urged by Dr. E. I. Wooden, county health commissioner, to take all steps necessary to check the advance and spread of the disease.

According to the history of the disease at Williamstown, which is located a few miles south of Milroy, the patients are taken ill suddenly, and in the cases of the three deaths, they were not ill very long.

One Milroy physician reported eight cases of measles in that town since Saturday, and unless it can be checked, the schools will probably be closed, and a rigid quarantine established. Houses under quarantine should observe all rules regarding the health of the community, and notices to this effect are being sent to these people through the mail, by Dr. Wooden. A fine and penalty is attached to quarantine violations, it is pointed out.

The three deaths at Williamstown last week were on the Decatur county side of the village, as the east and west road through the town is the Rush-Decatur county line.

DISCUSS REPAIR OF ROOF

Commissioners Also Hear Complaints About Road Contractor

The county commissioners, at their monthly meeting Monday afternoon, discussed plans for repairing the court house roof, which was put on new a few years ago, but no definite arrangements were made.

Sam Beaver, superintendent of the Morrison Beaver road in Noble township, complained to the board that the contractor would not finish the road because he could not get stone. The man supplying the stone agreed to provide it so that the road could be completed.

The commissioners will receive bids for supplies for court house offices December 14, it was decided. The usual claims were allowed.

MORE BIRTHS THAN DEATHS IN COUNTY

Grim Reaper Falls Short Ten In Rush County, Statistics For October Reveals

34 BIRTHS; 24 DEATHS

Dan Cupid Floods Market With 21 Marriages—Other Statistics For Last Month

Births ran ten ahead of deaths in Rush county during the month of October, Dan Cupid united 21 couples, and only 5 couples brought suit for divorce during the month, according to statistics compiled from the various offices for the month.

There were 34 births reported and 24 deaths within the county during October, of which number 21 births were reported from the county outside of the city, and 13 in Rushville, and of the deaths, 17 were outside of the city and 7 within the city.

In compiling the data on the monthly statistics, the records at the fire station reveal only a \$25 loss during the month, which was due to one roof fire. The fire department responded to 7 calls, one of which was false, and with only six cases of a fire or cause of alarm. Two of the alarms were box calls, four telephones, and one oral alarm.

Loren Martin, county clerk, reports 21 marriage licenses which set a new record for the year. The five divorce proceedings are also embodied in the 31 civil suits filed during the month, and the ratio for marriages and divorces show a little better average than 1 divorce for every fourth marriage license.

Only three cases of contagious diseases were reported in October, with two scarlet fever cases in Rushville and one scarlet fever case in the territory outside of the city. The report on births, as recorded for the month, and tabulated are as follows:

Rushville City
Donald Edward Miller, 227 East

BIG CLASS ADOPTION AT M. W. A. HALL NOV. 8

Thirty Candidates Will be Initiated Into Mysteries of Woodcraft in The Evening at Seven O'clock

OFFICERS TO WEAR NEW ROBES

The big class adoption of the Modern Woodmen of America will be held at the Modern Woodmen Hall Thursday night, beginning promptly at seven o'clock. There will be thirty candidates initiated into the mysteries of woodcraft.

The new robes of the officers have arrived and will be used for the first time that night. The clerk of the local camp has received word that a delegation of 25 or 30 Woodmen from Connerville will be present that evening and camps at Greensburg, Shelbyville, Rays Crossing, Manilla, Milroy, New Salem, Knights-town and Lewisville have sent word that they would be represented at the meeting.

The refreshment committee is busy preparing the eats for the occasion. The degree held its final practice for the initiation Monday night.

IT ISN'T WHAT YOU SAVE, IT'S WHAT YOU KEEP

TAXPAYERS HERE WILL ORGANIZE

County Association Will be Formed at Court House Assembly Room Meeting Saturday

PRELIMINARY SESSION HELD

Representative of State Association Explains Purposes And Committee is Selected

The organization of the Rush County Taxpayers Association, a branch of the Indiana Taxpayers association, will be affected at a meeting of taxpayers in the court house assembly room Saturday afternoon at two o'clock, it was decided at a preliminary meeting held late Monday afternoon at the American Securities company, which was addressed by J. S. Young, a representative of the state association.

A committee of five was appointed by the temporary chairman of Monday's meeting to draw up a call for the permanent organization meeting. The committee, which is composed of John H. Kiplinger, Douglas Morris, Robert A. Innis, Phil Wilk and Vern W. Norris, will meet at the county auditor's office tonight to make preparations for the meeting.

A group of twenty-two representative men of the community was invited to meet Mr. Young and hear an explanation of the plans of the state association, which has been in existence only since September of this year, but which has accomplished tangible results in effecting savings for the taxpayers of Marion county.

Mr. Young said that the state association planned to organize every county in the state, and he asserted that in the four counties previous to Rush, which have been organized, the same keen interest was shown in the enterprise, as had been displayed here.

It is provided that the county associations shall be organized by townships, with every township being represented on the board of directors, and that they shall be entirely separate from the state organization, the function of which is largely to organize the county associations.

The purpose of the state association, as set forth in the articles of association, is "to aid, encourage and promote the reduction of public expenses and taxes in the state of Indiana, and in the counties, cities and other political subdivisions thereof."

CLOSE TO \$55,000 LAST DAY

Tax Collections Last Day With Mount Higher By Late Mail

Close to \$55,000 in taxes was collected at the county treasurer's office Monday, the last day for paying full taxes without having a penalty attached for delinquency, but this amount was expected to be considerably increased by the checks mailed Monday and received today. They all count in Monday's receipts, by reason of having been mailed before the period for paying taxes ended.

Total collections up to the close of business last night were only a few dollars short of the goal of \$440,000 set at the treasurer's office. Taxes falling due amounted to \$447,000, but there are always several thousand dollars in delinquency.

WANTS D. D. BALL HIRED NEXT YEAR

County Board of Education Recommends That Purdue Reappoint County Agent For This County

MONTHLY MEETING HELD

Results Obtained in Schools on Agricultural Subjects—School Director is Praised

The Rush County board of education, composed of the township trustees, held their regular monthly session Monday afternoon in the office of B. D. Farthing, county school superintendent, and several matters of importance were taken up, including a discussion about the county agricultural agent, and the unanimous decision to request Purdue university to retain Donald D. Ball in that capacity.

The county agent question was discussed as to his duties in the schools, and what he is doing for the county now in that line. This is really the first school term that the county agent has been called upon to take active charge of the teaching of agriculture in the schools, and during the short space of time he has met with much success.

The county board voted to have Mr. Farthing report to Purdue of his work here, and the board recommended that he be reconsidered for the office, when his appointment becomes due next month.

The subject of Reading Circle books was presented to the board.

TRIBUTE PAID TO CHARLES H. BROWN

Banquet in His Honor Is Held by Rushville Council at Masonic Temple Monday Night

CHOSEN AS GRAND STEWARD

Will M. Sparks, as Toastmaster, Praises Him For Services Rendered to The Lodge

A banquet in honor of Charles H. Brown, who was recently elected grand steward of the grand council of Indiana, R. & S. M., was held at the Masonic temple Monday evening, and the praises of Mr. Brown as a Mason who is never too busy to do something for Masonry, were sounded by Will M. Sparks, who acted as toastmaster at the banquet.

One hundred and twenty-five members of Rushville council No. 41, R. & S. M. enjoyed the banquet, and following a brief program, in which the council and other divisions of Masonry expressed their appreciation of Mr. Brown's services as a Mason, through Judge Sparks, candidates were given degree work by by Rush chapter, No. 24, R. A. M.

"No man in Masonry has deserved this honor more than has Charlie Brown," said Judge Sparks. "No man has given more of his time to the cause for which we stand than has Charlie. He has never been too busy for Masonic tasks and we all appreciate immensely the fine work that he has done."

"Charlie has never invited the honor that has been bestowed upon him. It came as a recognition of his services for the order. And Charlie comes as near living up to the teachings of the lodge as any man I know. These are the kind of men we want to recognize."

Judge Sparks digressed to say that most Masons are that way—men who follow the precepts of Masonry and live it in their lives. He asserted that Masonry is the best safeguard a man can have against improper living and that very few men go wrong after they become Masons. In this connection, Judge Sparks also commented on the influence of a man's thoughts on his life and affirmed that a man is what his thoughts are.

"I would be ungrateful indeed," said Mr. Brown in a short response. "If I did not express my appreciation for your manifestation of good will. The brotherhood of man and the fatherhood of God has been the

TO DELIVER PARCEL POST

Herschell Schmall Now Substitute Carrier At Postoffice

Herschell Schmall has taken up his duties at the postoffice as substitute city carrier and parcel post delivery, succeeding Griffin Treadway, who became a regular city carrier a few weeks ago, when business required the addition of another city route.

Mr. Schmall was on the eligible list, and no examination was required at this time. By working as substitute carrier, and parcel post man, he also will deliver special delivery letters and parcels, and gradually work into the clerical duties. By the addition of Mr. Schmall, it gives Rushville six mail carriers, five of whom will have regular routes to cover twice a day. The fifth route has not been added, however, but will be soon.

RED CROSS WILL HOLD ROLL CALL

Rush County Executive Committee Decides To Make Appeal For Members Again This Year

TO MAKE NO ACTIVE CANVASS

Memberships May Be Renewed With Chairman Of Township Auxiliaries Or At County Headquarters

At a meeting of the Executive chapter of the American Red Cross, held at the headquarters of the committee of the Rush County organization in the court house, late Monday afternoon, plans were completed for conducting the annual roll call for members.

In the absence of W. E. Wagoner, chairman of the local chapter, who now lives in Indianapolis, Robert E. Mansfield was named as acting chairman, until the reorganization of the chapter, which will take place in December.

The Roll Call, as authorized by the National Red Cross, is November 11, Armistice day, to November 29. During this period subscriptions, and membership renewals will be received by the chairman of the auxiliaries of the Rush County chapter in the various townships throughout the county, and at the headquarters of the chapter in the recorder's office in the court house, Rushville.

A general personal canvass for memberships will not be made this year, as in the past, but patriotic citizens who are interested in the services of the American Red Cross are requested to renew their memberships through the headquarters of the organization in their local communities.

AUTOMOBILE STOLEN AT LAUREL RECOVERED

Machine For Which Rush County Association Offered \$50 Reward Found In Ohio

THIEVES MAKE GOOD ESCAPE

The automobile belonging to Ray Merrell of Laurel, which was stolen from the Van Meter garage in that place a week ago, and for the recovery of which and arrest of the thieves, the Rush County Horse Thief Detective association offered a \$50 reward, has been found near Glendale, O., where it was abandoned by the thieves.

The owner of the machine was notified Saturday by Cincinnati police that they were holding the car, and that it was found a few days after the theft. According to the information, the thieves piloted the car toward a lake, and then jumped, but the wheels of the car turned, and the machine stopped before it plunged into the water.

Empty boxes which had contained the inner tubes, spark plugs and other accessories that were stolen, were found in the machine by Kelsey Shoets, near whose place the machine was abandoned.

Mr. Merrell and Earl VanMeter went to Cincinnati yesterday to recover the machine.

BE THANKFUL FOR HERITAGE, PLEA

E. B. Thomas Says People Of This Country Should Never Cease To Be Thankful For Living Here

SPEAKS TO THE ROTARY CLUB

What We Owe Pioneers Is Emphasized in Comparing U. S. Civilization With Porto Rico

"You men ought never to cease to be thankful that we live in this country," E. B. Thomas, formerly of this city, said before the Rotary club today noon in speaking of life in Porto Rico, where he has lived for the past eighteen months and has been in charge of the U. S. Federal land bank.

"What you owe the men and women who blazed the trail that we might have our present high standard of civilization, can never be estimated. What a heritage we have, we will never be able to appreciate."

Mr. Thomas, who was a member of the Rotary club while a resident of this city, was moved to make this comment while describing the racial distinctions that exist on the island and the exploitation of the natives by the Spanish people.

"The most hopeful sign I find, however," he added, "is the desire on the part of the children for information. They are attentive and they all want to go to school."

"I sometimes think," Mr. Thomas said in this connection, "that we should arouse a desire for knowledge among some of our school children here in Indiana by denying school."

Mr. Thomas declared that there are 400,000 school children on the island and accommodations for only 200,000. Thousands are turned away from the schools every year and on the opening day, they go to the buildings early in the morning in order to be enrolled. University students, he said, stand in line all night the day before the opening of the term in order to be admitted.

"If I followed my first inclination," Mr. Thomas said at the beginning of his address, "I would tell you of the joy, the real joy I have in being here. It is a tonic, sort of an elixir, to be greeted as I have been greeted."

Mr. Thomas has become a member of the San Juan Rotary club, but stated that when he was invited to join, he made sure first that his affiliation would not disturb his relations with the Rushville club, which is that of an honorary member. He said the San Juan club was composed of 75 members, about one-half of whom are continental Americans.

"Don't ever make the mistake of

TWELVE BODIES ARE RECOVERED FROM MINE

Thirty Men Believed Entombed in Coal Mine Near Beckley, W. Va. Following Explosion

FEARS FOR THEIR SAFETY

(By United Press)

Beckley, W. Va., Nov. 6—Twelve bodies have been recovered from the pit of the Raleigh Wyoming Coal Company, Glen Rogers mine, near here, which was wrecked by an explosion this morning, according to a statement issued at noon today by company officials. Thirty men are believed still entombed, the statement said.

Sixty-five workers went down the main shaft of the mine at dawn. Twenty-three made their way to the surface soon after the blast. They were uninjured.

Mine officials expressed grave fears for the fate of the thirty men who have not come up.

Rescue squads were making headway through the debris in the mine at noon and several more bodies were being extricated, the mine officials said.

The cause of the blast has not been determined definitely, but it is believed to have resulted from a pocket of gas collecting far back in the mine.

IDLE TEN WEEKS RETURNS TO WORK

ERNA WOLFE
Marion, Indiana

Suffered With Brights Disease and
Influenza—Completely Recovers
Through Chiropractic
Adjustments

Mr. Wolfe says: Chiropractic has done so much for me that I feel I should tell others of my experience.

"For a long time I was troubled with Brights Disease and during the course of this illness I contracted Influenza, which left me in such a bad condition that I finally had to quit my work for ten weeks.

"J. M. Starr, a Chiropractor, was called in and I started taking spinal adjustments. I began to improve immediately and returned to my work as blacksmith at the Marion Machine Foundry.

"After taking the complete course of adjustments I am a well man, having regained my former health and strength. I am indeed grateful for what Chiropractic has done for me. Signed: Erna Wolfe, 1602 West First St., Marion, Ind.

The one incomparable gift you possess is health. You cannot afford to be without it. Chiropractic is the inexpensive way of retaining or regaining it.

FLORENCE HOT BLAST

Air Tight Florence will pay for itself in a few seasons in the saving of coal.

The damper back of the fire pot eliminates the soot, dust, dirt and clinkers that must be put up with in using all other heating stoves.

The damper back of the fire-pot is the only ORIGINAL FLORENCE with the J. B. Howard Combustion device.

Other makes of stoves are only imitations. If you want the Genuine Florence, see that the damper is back of the fire pot.

John B. Morris
HARDWARE

It will do all NUBIAN

We are going to be honest with you about THE NUBIAN HOT BLAST.

It is constructed with the famous J. B. HOWARD Combustion Device that is no doubt the best thing ever put on a stove to save coal, and as far as we know, there is only one other stove with the same device.

The Nubian has plain casting and nickle that are easy to keep clean.

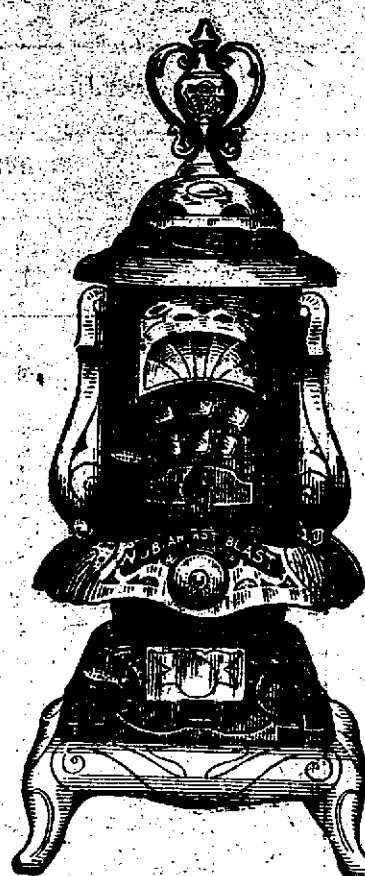

Just a nicer looking stove.

It warms the floor and holds fire to your entire satisfaction.

We want you satisfied.

Come to Our MAJESTIC Range
Demonstration ALL THIS WEEK.

This Is Majestic Week

we claim for it NUBIAN

We do not want to disappoint you by telling you the Nubian will heat three or four times more space at one-fourth the cost than any other stove with the same fire-pot.

We do not want to tell you that the J. B. Howard Combustion device will save you two ton of coal out of every three—that would sound ridiculous, wouldn't it?

It will burn as much of the smoke, save as much coal, be as clean, and last as long as any other stove of the same construction.

The Nubian has been on the market for seventeen years and we are told by the manufacturers that their records show that out of all the many Nubians sold they have only furnished sixteen new fire bowls to users.

This is MAJESTIC Week. We give a set of ware with each Range bought.

EELWORM DISEASE MENACE TO ALFALFA IN AMERICA

The alfalfa eelworm disease caused by the alfalfa nematode, a parasitic eelworm, is causing considerable damage to alfalfa fields in America and consequently serious losses. This pest is proving itself to be extremely dangerous and one that deserves prompt and aggressive measures to check it before it becomes more widespread. The pest has been under observation by the United States Department of Agriculture in a few isolated locations in this country for the last two years, but it is feared that the present distribution may be greater than is now known.

Department Circular 297, The Eelworm Disease a Menace to Alfalfa in America, is a recent publication issued by the United States Department of Agriculture to acquaint the public with the nature of the disease and to enlist aid in determining definitely its presence or absence in all alfalfa-growing sections. The disease is responsible for serious loss where it occurs elsewhere in the world.

Mothers, Do This— When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then when you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister. As first aid, Musterole is excellent. Thousands of mothers know it. You should keep a jar ready for instant use. It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it may prevent pneumonia).

To Mothers: Musterole is now made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c jars and tubes.

FOR INTERALLIED CONTROL

Paris, Nov. 6.—Premier Poincare today on behalf of France and her allies sent a note to the German government demanding that she take steps to permit resumption of inter-allied military control, it was learned. The note insisted that Germany must reply before the end of the week.

DEAR TO THE HEART

Is there anything dearer to the heart of a woman than a real beautiful kitchen range? To witness the crowds at Gunn Hayden's attending the special exhibit of the Majestic Range, one would think not. An expert from the Majestic factory is here for the week, and the way he shows the advantages of the Majestic heat-tight construction makes possible the accurate control of the heat while baking and how the linings and hidden construction are such that give long life to the range. It requires no expert to point out the smooth, lustrous finish of the Majestic Range—these speak for themselves. The new 1923 Model has many many improvements and is the last word in finish and design.

RUSHVILLE STUDENTS
EDIT WABASH PAPER

Lucis E. Smith And William Frazee
Have Been Elected Managing Editors of The Bachelor

EACH HAVE ISSUE A WEEK

Crawfordsville, Ind., Nov. 6.—Two Rushville boys who in high school published a weekly newspaper, continued their journalistic conquests until they have attained together the position of managing editors of the official semi-weekly newspaper of Wabash College. They are William Frazee, a member of the Beta Theta Pi Fraternity, and L. E. Smith, a Delta Tau Delta.

Since there are two offices of managing editors one of the managers will have charge of one issue of the paper each week.

Frazee and Smith made the staff over a large number of candidates in their freshmen year. They are now sophomores at college. Election to an office on the Bachelor is one of the highest honors that a Wabash student can gain.

The Rushville boys referred to in the above dispatch got their first experience on the Rushlite, when it was started in the Rushville high school two years ago, and they had further experience in issuing the Holoed, high school senior annual. Mr. Smith also wrote a high school column in the Daily Republican which was very popular and showed that he had rare ability as a writer. Rushville friends of the two boys are very proud of their showing at Wabash.

FUNERAL OF MRS. COUCH

Funeral services for Mrs. Julia Couch, wife of William Couch, who died Monday afternoon, will be held Wednesday morning at nine o'clock at the St. Mary's Catholic church, in charge of the Rev. Francis Schaub. Interment will be made in Calvary cemetery.

ALTER SOCIETY TO MEET

Members of the Alter Society of St. Mary's Catholic church are requested to meet at the home of Mrs. William Couch this evening at eight o'clock.

MILROY

Among those from Milroy who attended were the Misses Louise Davis, Fern Morrison, Helen Overleese, Jean Power, Dorothy McKee, Mary Shelhorn, Margery and Alice Anderson, Eula May Allen, Garnet Rose, Maurita Buell, Opal Downs, Helen Mills, Alice Downs, Reba McIlvaine, Juanita Richey, Mabel Lawson, Ethel Thomson, Helen Seright, Gail Readmond, Marcia and Mary Kitchen, Petty Kitchen, Opal Shaw, Mary Shaw and Russell and Robert Cross, Walter Cady, Thornton Martin, Don Richey, Charles and Edward Tompkins, Roland Mills, Donald Richey, Howard Overleese, Roy Ruddle, Carlos McKee, Alton Lawson, William Houghland, Maurice Cowan, George Green, Leonard Carr, Lyle Power, Theron Coffin, Dr. and Mrs. Lampton, Dr. and Mrs. Houghland, Mr. and Mrs. Herbert Innis, Mr. and Mrs. McKinnis, Mrs. Harland Overleese, Mr. and Mrs. John Booth, Dr. and Mrs. Ross, Mrs. Wiley McKee, William Anderson, Nolan and Lowell Hood and Lowell Thomson. Milroy was victorious in both games.

William Houghland who is attending Butler College in Indianapolis, spent the week-end with his parents here.

Miss Alice Downs and Helen Mills, who are attending school in Indianapolis spent the week-end, with home folks.

Maurice Cowan, who is attending Wabash College in Crawfordsville, spent the week-end with home folks.

W. S. Mansfield was a visitor in Greensburg Tuesday night.

Miss Sylvia Power has been visiting friends in Elkhart the last week.

Mr. and Mrs. Leland McGinn and family of Adams spent the week-end, the guests of Mr. and Mrs. D. G. Akers.

Mrs. Mary Hinchman returned to her home in Glenwood Saturday after a few days visit with her aunt, Miss Maggie Laughlin.

Mrs. Mable Kincaid spent a few days last week with relatives in Clarksburg.

Miss Thelma Kincaid and William Logan were visitors in Greensburg Friday night where they attended the Clarksburg-Sandusky basket ball game.

Mr. and Mrs. Charles Stewart of Rushville were the Sunday guests of Mr. and Mrs. Paul Stewart and son Robert K.

Mr. and Mrs. Lloyd Nelson and family of Rushville moved to the N. E. Tompkins residence on East Main street Saturday.

Mrs. Edgar Thomas is spending a few days with Mr. and Mrs. James Spillman of Indianapolis.

Mrs. John Jackman spent the week-end in Indianapolis.

Miss Cathryn Bosley was a visitor in Rushville Friday evening.

W. S. Mercer was a business visitor in Indianapolis Friday.

John Jackman left Monday for South Carolina where he is shipping a carload of stock.

Mrs. Guy Hamilton, Mrs. Dill Brown and Mrs. Otis Nation were visitors in Rushville Friday.

Miss Myrtle Lines of Morristown spent the week-end with her parents, Mr. and Mrs. William Lines.

Dr. Frank Henry of Cairo, Egypt, who has been visiting his brother, Virgil Henry, and wife left Saturday for a visit in Missouri.

Dr. and Mrs. L. M. Henry of Indianapolis have come for an extended visit with Mr. and Mrs. Virgil Henry.

The 1917 Embroidery club was entertained at the home of Mrs. Faude Tompkins Wednesday afternoon. Dainty refreshments were served.

Mr. and Mrs. Lois Harcourt were visitors in Waldron Monday.

Mr. and Mrs. Monroe Gloschen entertained at dinner Friday evening. Covers were laid for the following: Dr. and Mrs. L. M. Henry of Indianapolis, Frank Henry of Cairo, Egypt, and Mr. and Mrs. Virgil Henry of Milroy.

Mrs. William Palmer of Sandusky and Mrs. Fred Moeck of Greensburg were the dinner guests of Mrs. Ira Walker Friday.

Mr. and Mrs. Ray Selby and family were the guests of Mr. and Mrs. Eph Root Tuesday.

Miss Liff, who has been the guest of her sister, Mrs. McGinnis, and husband the past week, returned to her home in Summitville, Indiana, Thursday.

Mr. and Mrs. Norman Harcourt visited relatives in Knightstown Sunday afternoon.

The Misses Clara and Hettie Hillis of Greensburg were the guests of Mr. and Mrs. Frank Hillis Friday.

E. H. Innis was a business visitor in Hartsville, Friday.

The Misses Leone Downs, Mildred Booth and Yuma Houghland were visitors in Rushville Friday evening.

Mrs. Will Jones and Mrs. Merritt Thomas spent Friday in Rushville.

Mr. and Mrs. E. H. Innis entertained Sunday with a twelve o'clock dinner. Covers were laid for the following: Claude Thomas of Mooresville, Mr. and Mrs. Robert Dorste and Louise Dorste and family of Anderson, Mr. and Mrs. Ralph Wicks of Indianapolis, and Mr. and Mrs. E. B. Thomas of Porto Rico.

Mrs. Ed McGinn of Adams spent the day with Mrs. D. G. Akers Thursday.

Mr. and Mrs. Walter Hite had as their dinner guests Tuesday, Mr. and Mrs. Frank Rominger of Hartsville.

Dr. and Mrs. A. C. Ross were the guests of Mr. and Mrs. Will Day near Laurel Sunday.

Mrs. Frank Witters, Mr. and Mrs. Will Fishback of Illinois and Mrs. John Inman were the dinner guests of Isaac Seright, Friday.

Mrs. Omar Brooks was the guest of Mrs. James Root Thursday.

Mr. and Mrs. Therman Arbuckle and family moved Tuesday to the India Francis residence in the new addition, recently vacated by Jim Buchanan.

I. N. Downs has recently accepted a position at the I. and C. car barns in Rushville.

Mr. and Mrs. Eugene Fishel of Hope, Ind., were the guests of Mr. and Mrs. W. S. Mansfield a few days last week.

Mr. and Mrs. Fred Walker of near Richland are the parents of a baby girl since Thursday.

Mrs. Mary Boring entertained at Sunday dinner, when her guests were Mr. and Mrs. John C. Benning and Mr. and Mrs. Clyde Thomas and daughter Ruth.

Mr. and Mrs. R. P. Stine and family were among the guests entertained at dinner Sunday at the home of Mr. and Mrs. O. M. Martin of Adams.

Clarence Richey of Greensburg was a business visitor here Monday.

Mrs. W. S. Mansfield, Mrs. Elizabeth Archey and Miss Florine Hood were the guests of Mr. and Mrs. Eugene Fishel of Hope, Sunday.

Alton Lawson, who is attending Purdue University in Lafayette, spent the week-end with oh emfolks.

S. W. Matthews and Mrs. John Booth were visitors in Rushville Saturday.

The local teachers attended the institute in Rushville Saturday.

Mrs. John Booth and Mrs. W. T. Lampton were visitors in Greensburg Friday.

Mr. and Mrs. William Fishback of Pekin, Illinois, were the guests of Mr. and Mrs. I. N. Downs and family Saturday.

Clifford Barnard of St Paul was a visitor here Friday night.

Mr. and Mrs. William Fishback of Pekin, Illinois, visited Mr. and Mrs. William Bosley last week.

Speed

Introducing the typewriting speed demons. Top shows Bessie Friedman of New York who recently won the world's championship for women typists. Speaking of Twins

Now here's something to ponder. The gentleman who just brought back these two baby elephants, now at an animal farm on Long Island, says they're twins. If they are, they're the first you ever saw.

Marshall County Cows
Given First T. B. Test

Not quite a year was required to complete the first round or initial test of cattle for tuberculosis in Marshall County. To date, 10,252 head of cattle have been tested and about 230 head of tubercular cattle have been found and most of them slaughtered. All reactors have been shipped to Chicago for slaughter and on four occasions, parties of 8 to 10 men and women, accompanied by the County Agent, have gone to Chicago to see the cattle killed. In a few instances, some of these persons have been "doubters" and in each instance have been satisfied as

to the results, County Agent L. M. Butler reports. The expense of the test has been paid out of the 50c charge levied against each animal tested.

APPROPRIATES \$5,000

Indianapolis, Ind., Nov. 6.—The Marion county council today authorized a special appropriation of \$5,000 for the expense of the special grand jury investigation of the affairs of Governor McCray. The appropriation was made to permit the grand jury to widen the scope of its investigation into the governor's financial transactions.

TRY A WANT AD

New Lines

This is the latest variation of the basque. The blouse fits snugly but with no suggestion of tightness or hidden corset stays. The skirt does not flare so much as in other seasons. The flounces are flat and the waistline just circles the hips.

THE IDEAL WAY: — They helped every one his neighbor; and every one said to his brother, Be of good courage.—Isaiah 41: 6.

Nobody's Business

What's everybody's business is no-body's business. That has been true of taxes and taxpayers since the beginning of time. It is seldom that an individual ever makes a complaint

against anything which will keep the tax rate ascending, but there are always plenty to be benefited who will boost the things that keep tax rates mounting. The per capita tax in Rush county is now fifty dollars a year, double the amount ten years ago, and the same condition prevails in other counties of the state.

Every special interest imaginable is represented in the state legislature and in the congress, for that matter, to guard against baleful legislation and to assist laws for their benefit. That is, every "special" interest except the taxpayer. The fellow who pays the bills has no one to keep his purse strings tight. He is unprotected, as it were, because he has no one to speak for him.

Now comes the Indiana Taxpayers association and proposes to act as his mouthpiece—that is, if enough of the taxpayers are willing and signify their willingness by joining the association and paying the nominal fee of one dollar a year.

The avowed purpose of the association is "to aid, encourage and promote the reduction of public expenses and taxes in the state of Indiana, and in the counties, cities and other political sub-divisions thereof."

A temporary organization of a Rush county branch has been formed and a meeting will be held Saturday for the purpose of organizing permanently. This is an opportunity for taxpayers to be represented in the making of tax levies and in the making of laws that eat up the taxes. Responsible men with the highest motives are at the head of the state organization and they are seeking to bring about a vehicle that will honestly represent taxpayers.

Pleasant Dreams

If indications count for anything the United States will soon be taking part in a European talkfest on Ger-

many's capacity to pay reparations. If the word of Premier Poincaré is worth anything France will decline to consider any reduction in the amount of reparations from Germany, while at the same time advocating the canceling of the debts France and other allied countries owe to this country.

Inasmuch as all of the allied governments are heavily indebted to the United States, and we are not indebted to any other country, cancellation would be an interesting subject for us to discuss with our debtors—especially interesting for them. But the proposition doesn't look good, sound good or smell good to us.

Men of wisdom always attend to their own affairs and expect others to do the same.

Everybody knows what the fool does.

Are we to play the fool for the edification and the financial benefit of Europe?

If we have any brains in this country this is a perfectly opportune time in which to use them—for our own benefit.

The Hodge - Podge

By a Paragrapher with a Soul

Suspicious people see a "catch" in everything, and they were right in the case of that conference of experts on German reparations.

Lloyd George said during his tour of the United States that the man under the steel helmet won the war. Whoever won it, there is no gain saying the fact that it was not won until the United States got there.

Some men get it in the neck, but even that does not stop their tongues from wagging.

Dempsey and Firpo play to fight again, but they will permit enough time to elapse for fans to accumulate the price of an admission ticket.

There are those who insist that the more a man knows, the less he should be paid.

Folks who make hard jobs out of soft snaps are the kind who arrive in the end.

A scientist says the Pacific coast of America is due for the next earthquake shock. But it doesn't look like Hollywood could be shocked.

SAFETY SAM

In the young lives of too many motorists, the sound of a street car gong means nothing more'n something comin' that can generally be beat over the crossin' by a little hurry!

The more phone numbers we have the harder the things are to get.

FIFTEEN YEARS
AGO TODAYFrom The Daily Republican
Friday, November 6, 1908

Merrill S. Ball, a son of Mrs. Isaac S. Barrett, of this city, says the Greenfield Tribune, was elected commissioner of Rush county, Tuesday by a majority of 205. He defeated Ed Adkins, democrat, and Owen S. Henley, prohibitionist. Mr. Ball lived in Green township, this county, for many years. He is a big farmer, a fine young man and will make an excellent commissioner.

A fire was discovered in a large clover field on the Charles Frazer farm, one mile south of Circleville, early this morning by one of the hired hands. It is estimated that more than ten acres was burned over before the blaze was extinguished.

The children of Hamp Matlock will all try to meet with him next Sunday in a family reunion. They are Mrs. Belle M. Fox of Colorado, George Matlock of Greenfield, Smith Matlock of Richmond, Charles Matlock of Indianapolis, Will E. and James E. Matlock, twins, and Mrs. Viola Bell of Kokomo and Mrs. Maxie Bates and D. F. Matlock of this city.

Mr. and Mrs. J. G. Bennett of Indianapolis came last night to spend Sunday, the guests of Mr. and Mrs. Ed L. Beer in West Fifth street.

Congressman Watson is getting down to hard work already. Yesterday he accompanied Capt. Gowdy to his farm west of this city and put in some little time shucking corn. However, he quit before he became overheated or split a thumb.

Miss Ruth McMillin of Gings station visited Mr. and Mrs. Walter Smith today.

Mr. and Mrs. Frank McCrory, living north of Palmouth, entertained about fifty guests in celebration of their wedding anniversary Wednesday night.

The opening dance at the Social club last night was a big success. The dance hall was beautifully decorated with corn stalks and autumn leaves. A light luncheon was served at midnight. The out of town guests were Henry C. Frenk of Detroit, William Hull of Connersville, Frank Cornell of Cambridge City and Miss Bertha Graves of Indianapolis.

A hunting party has been organized which will leave next Monday for Jennings county, where they will hunt quail. They will be gone one week and expect to camp in tents during the whole time. The party is composed of Jasper Case, Link Gaf-

MRS. HICKEY
SO WEAK COULD
HARDLY STANDTells How Lydia E. Pinkham's
Vegetable Compound
Restored Her Health

Worcester, Mass. — "I had some trouble caused by a female weakness and got so run-down and weak from it that I could hardly stand or walk across the floor. The doctor gave me all kinds of pills, but nothing helped me. I happened to meet a friend who had taken Lydia E. Pinkham's Vegetable Compound, so I thought I would try it. After taking it a week I began to improve, and now I feel fine and am doing all of my housework, including washing, sewing and house cleaning. I have recommended your medicine to my friends, and I am willing for you to use this letter as a testimonial, as I would like to help any one suffering the way I did from such a weakness." — Mrs. DELIA HICKEY, 4 S. Ludlow St., Worcester, Mass.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass. This book contains valuable information.

ARLINGTON GAME ENDS IN A SCORELESS TIE

Athletic Club Holds Brookside Cubs Scoreless—And Puts Up Hard Offensive Battle.

WICKER STANDS OUT IN GAME

Another hard fought game was played at Arlington Sunday, as predicted, between the Brookside Cubs of Indianapolis and the Arlington Athletic club when they played a 0-0 tie game on a very muddy field and in a drizzling rain.

Both teams fought hard, neither showing to advantage, though Arlington's team work was the best they have shown this season. Riley full back for the Indianapolis team, was their best ground gainer, while Johnny Wicker, playing full for Arlington, stood out above any player on either team. His line plunging was especially effective. He also made the longest run of the game, a 28 yard run through left tackle, shaking off the whole Indianapolis team except their safety man, who was able to stop him.

If weather is so that a game can be played, another game will take place at the Athletic field next Sunday.

Sporting Goods Bargains
I have purchased the stock of the G. H. Westing Co., of Indianapolis, Indiana, consisting of all kinds of Sporting Goods.
This stock at one time was the largest stock of Sporting Goods in the State of Indiana. I have closed out some lines and will sell the balance at greatly reduced prices, as soon as we get the stock invoiced and marked. We will endeavor to serve any school at once if they will let me know their needs.
SAM FINNEY

DOINGS OF THE DUFFS

TO OPEN SEASON AT ORANGE

R. R. R. Basketball Team Will Appear in New Suits Wednesday

The R. R. R. basketball team of this city, formerly the Keystone, will make their initial appearance Wednesday night at Orange, when they meet the independent team of that place. The local team is called the Rushville Rambling Romeos, and their new suits of blue and white will be ready for the opening game tomorrow night.

Smith and Wood, guards and Calp The team will line-up with the following players: Tabor, Walker and Dagler, forwards; Grim, Readle, center.

CARD OF THANKS
We wish to thank our friends and neighbors for their kindness and sympathy extended to us at the death of our beloved cousin, Emma Gordon; also the Rev. Henry W. Hargett for his consoling words, the pall bearers the undertaker, Fred Caldwell, and the friends for their beautiful floral offerings.
Henry Wilson and Family.

Football Sportsmanship

By HENRY L. FARRELL (United Press Sports Editor)

New York, Nov. 6.—Sportsmanship is not confined to any particular line of activity on the field. Ethics of some sports are considered higher and are more generally respected and observed than in others.

Tennis, polo and golf, the more fashionable sports, are generally looked upon as those sports in which the competitor always grants the advantage of the doubt to his opponent.

Baseball permits judgment on only two doubts—in case of a question give the batter a hit instead of an error to the fielder and in a close decision on the bases favor the runner.

Ethics are carried to extremes in some sports. Bill Tilden, as the leader of tennis, went so far in being a sport that he tossed away a whole set in the recent Davis Cup matches to Jim Anderson because Tilden thought he had been given a break by a bad decision of a line judge.

For all around sportsmanship, for the general prevalence of "square deal" and gentlemanly conduct, collegiate football will rank with any of the popular American sports.

Little contrasts cropping out from time to time make some other sports suffer in comparison to the greatest of all college games.

Rowdy days are supposed to have passed in professional baseball, the so-called national pastime. There are few pitched battles on the field, in-

stances of slugging under the grandstands are widely scattered since the type of player engaged in the game began to be elevated, but the spirit back of the players still carries a little of the old flavor.

"We'll cut that bird down if we get a chance," one of the Giant players said during the world's series about Babe Ruth.

Ruth, the Yankee star, had been charged by the Giants with going into the bases with his feet up. In baseball that is considered an overt act.

The Babe was not "cut down" during the series. Perhaps it was not because the chance was not afforded, because Ruth was on the bases often. It might have been that Ruth is rather large and capable with his fists and the player who resorts to "cutting down" is ordinarily not of the type that is willing "to go" in open combat.

It is not unethical in professional baseball for a competitor to take advantage of the physical weakness of an opponent. Neither is it that way in boxing. The stakes are too high in professional sports for the competitor to think of anyone but himself.

CARD OF THANKS

We wish to express our gratitude for all kindness shown us during the illness and death of our son and brother.

Mrs. Ella Bowen and Family.

Sideline Glimpses

Urbana, Ill.—Wisconsin's line is stronger than Chicago's, Illinois scouts warned Coach Zuppke's men as they started preparing for the Cardinal game here Saturday.

Madison, Wis.—Coach Ryan and his assistants began their efforts to instill a determination to win in the Badger team while scouts told stories of Grange's part in the Illinois defeat of Chicago.

Lafayette, Ind.—Rosborg, tackle, recently injured, was back in uniform when the Boilermakers went through a long signal drill, getting ready for the Ohio State game this week.

Columbus, O.—A shoulder fractured in the Denison game Saturday has put Bernard Schulist, guard, out of the game for the remainder of the season.

Chicago—Smartering from the defeat by Illinois, the Maroons tried out a flock of unused plays with the determination to win all there remaining games, starting with Indiana Saturday.

Evanston, Ill.—The Purple squad starts work today for the game with Lake Forest Saturday and the battle with Purdue the following week.

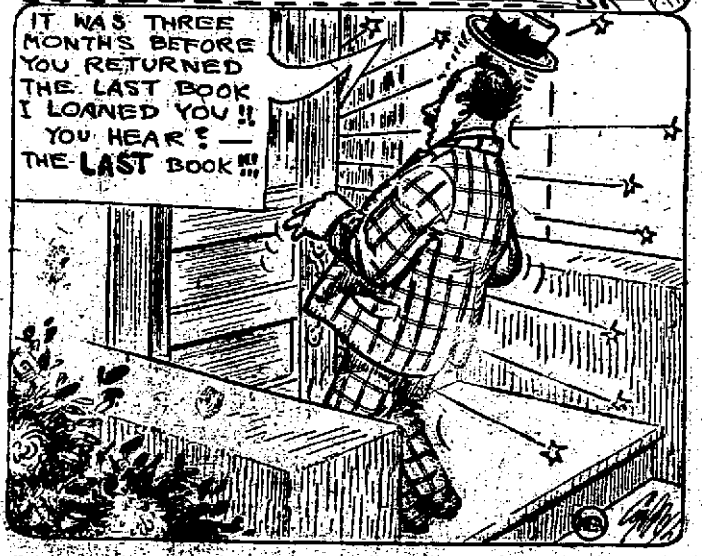

Bloomington, Ind.—Coach Ingram shifted Loerber to center in place of Wilkins who takes an end job and sent the Indiana gridders through a signal drill on a sloppy field.

IN DRAMATIC CLUB

Deryl Case, son of Mr. and Mrs. J. D. Case of this city, who is a student in Butler college, Indiana Dramatic club, according to an anapolis, has been elected to the Butler management in Butler College News in Indianapolis newspapers. He was one of the sixty members admitted The Rushville boy has also been elected to the Butler Glee club.

Social Notes

The Shakespeare Club will be entertained tonight at the home of Miss Henrietta Coleman in East Sixth street.

Miss Iona Hines, daughter of Mr. and Mrs. James Hines of Mays, and Hiram Hagerman, son of Mr. and Mrs. Jesse Hagerman of Spiceland, were quietly married Monday afternoon at the St. Paul's Methodist Episcopal church parsonage by the Rev. H. W. Hargett. Mr. and Mrs. Hagerman will live in Spiceland.

The helping Hand Society of the Homer Christian church will meet Thursday afternoon at two o'clock at the home of Mrs. Moll Sampson, living south-west of the city. Each member is requested to be present at this meeting, for plans will be made for the Thanksgiving exchange to be held in this city.

Among the first Bibles to be presented to the Rush county schools were given to the teachers of Richland township at the last business session of the Parent-Teacher's Association held at the Richland M. E. church Friday night, October 26. The program rendered at that time was highly appreciated by all present. The association's next meeting will be at the same place, Thursday, November 15.

Mrs. Alfred Looney entertained at her home in West Third street Sunday with a mid-day dinner, in honor of the birthday anniversary of her mother, Mrs. Laura D. Brooks. Those who attended the pleasant affair were Mr. and Mrs. Will Brooks, Mr. and Mrs. Orville Zimmer, Mr. and Mrs. John A. Tittworth and son John Charles, Mr. and Mrs. Demp Norris, Smith Carney and daughter Zora, Miss Belle Mauzy and Russell Tittworth, Harry Norris and William Brooks, Jr.

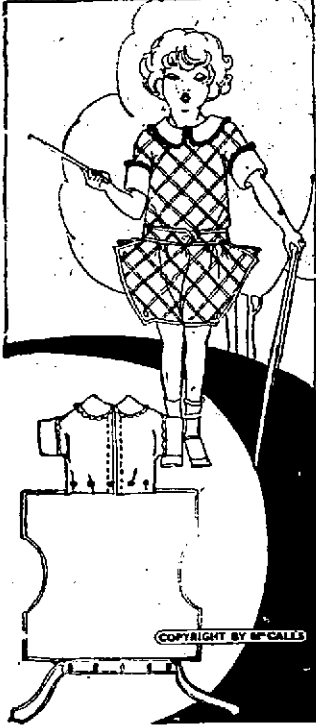

The regular meeting of the Woman's Home Missionary Society of the St. Paul's Methodist Episcopal church has been postponed until Thursday, November 15, on account of the Indiana conference meeting of the Woman's Home Missionary society which will be held in New Albany, Wednesday and Thursday of this week. The local society will be represented at this meeting by Mrs. J. M. Walker, Mrs. John Jordan, Mrs. Charles C. Parsons, Mrs. C. A. Dugal and Mrs. E. B. Poundstone.

The Monday Circle held a delightful meeting Monday afternoon at the home of Miss Jennie Madden in North Main street. Three papers were read at this meeting for the program, one on "Joseph Hergeshimer-The Man and His Books," by Mrs. Bessie Norris and two on "The Vogue of Sinclair Lewis," by Mrs. Jennie Payne and Mrs. J. B. Kinsinger. A general discussion followed these papers, in which several interesting points were brought out. A delicious luncheon was served by the hostess at the close of the program.

The next meeting of the Circle will be held Monday, November 19, at the home of Mrs. Ed Chambers. At this meeting Mrs. Demarchus Brown will give her experiences on her North African trip, and it will be guest day.

The three surviving sons of John D. and Emily Baylis Downey, born after the parents settled in the southern part of Noble township, nearly eighty years ago, and members of two later generations, held a reunion at the home of J. E. Downey in this city Sunday. The day quickly passed in the usual reunion greetings and reminiscences, in enjoyment of the delicious pitch-in dinner, and in taking pictures of the various branches of the family. The members of the older generation were Mr. and Mrs. Mrs. L. B. Downey and Mr. and Mrs. J. E. Downey, of this city, Mr. and Mrs. M. H. Downey of Anderson and Mrs. Joe A. Downey of Indianapolis. Those of the younger generations present were Mr. and Mrs. A. J. McCullough, Luther McCullough, Miss Emily McCullough and Mr. and Mrs. Charles Downey and daughter of Indianapolis, Mr. and Mrs. Perry Downey and two sons of Orange, Mr. and Mrs. C. B. Matney of New Salem and Miss Della Downey of this city.

One-Piece Romper

A cleverly designed pair of rompers for a small boy or girl is made in one piece if one wishes or in two if one prefers, but in any case it is conveniently made for easy washing and ironing.

Mrs. Earl Winship entertained with two tables of bridge Monday afternoon at her home south of the city. Refreshments were served at the close of the card games.

Mr. and Mrs. Louis Bagley had as their Sunday dinner guests, Mr. and Mrs. James Lail of Indianapolis and Mr. and Mrs. J. C. Bagley and family of Logansport, Ind.

Mr. and Mrs. John Gartin entertained Sunday with a dinner at their home in Circleville, their guests being Mr. and Mrs. John Brooks and two daughters of Shirley and Mr. and Mrs. Ed Logan, living south of the city.

Mr. and Mrs. George Stout entertained with a dinner party Sunday at their home in North Oliver street. The guests were Mr. and Mrs. Luther Warriek and children. In this evening Mrs. Corda Sisoe and children were guests.

The Get-To-Gether club enjoyed a splendid social afternoon Monday at the home of Mrs. Manley Pearce, in North Main street. The ladies of the club assisted Mrs. Pearce in piecing a quilt and as a climax to the informal afternoon, the hostess served lovely refreshments.

The Band of Workers of the First Presbyterian church will meet Wednesday afternoon at the home of Mrs. J. D. McGee in North Harrison street. The assisting hostesses will be Mrs. Ruby Petry and Mrs. J. P. Hogsett. Each member is requested to be present as an interesting program has been prepared for this meeting.

Let's Go

National politics is "picking up." Earl E. Kinsley, Republican National Committeeman from Vermont, is shown after he had come from the White House. He is in Washington to enlist the aid of administration in the coming election in Vermont.

New Head

Miss Ada Louise Comstock, former dean of Smith College, Massachusetts, recently was installed as head of Radcliffe College for women.

Dr. and Mrs. A. G. Shauck of Arlington entertained with a high noon dinner party Sunday, their guests being Mrs. Shauck's parents, Mr. and Mrs. Herbert Gilson of Toledo, Ohio, Mr. and Mrs. Fred Knecht and daughters Imogene and Kathleen, Miss Marie Warder and Dan Wolf. Sunday evening Mr. and Mrs. Gilson visited Mr. Gilson's mother, Mrs. Boone Gilson, living north of this city. They returned to their home in the evening Mrs. Corda Sisoe.

Mrs. May H. May went to Indianapolis today and will be the house guest of her brother and wife, Mr. and Mrs. L. C. Hinchman for a few days. She will attend the matinee at the Murat theatre Wednesday afternoon and will see "The Passing Show". While there she will also attend the National Flower Show being held in that city this week.

The first meeting of the Young Ladies Mission Circle of the St. Paul's Methodist Episcopal church, since its organization, was held Monday evening at the home of Miss Lavienna Compton in West Third street. Miss Winifred Muire, who has just returned from a trip around the world, gave the members an interesting talk on the earthquake in Japan. Miss Betty Innis rendered a piano solo and Miss Compton gave a reading about a little missionary girl. At the close of the interesting program, refreshments were served to those present by the hostess.

The War Mothers will meet at the assembly room of the court house on Wednesday afternoon at 2:30 o'clock and all members are urged to attend, as business of importance will come before the meeting. Plans for the "Forget-me-not" campaign will be taken up, as the sale of the flowers will be conducted by this organization. Mayor Thomas has given the organization permission to sell the flowers on the street, and approval of their plans.

Miss Mary Frances Clore entertained last Saturday afternoon with a bridge party at her home in this city, honoring her week-end house guest, Miss Margaret Lee, of Cincinnati, Ohio. Three tables of bridge were in session during the afternoon, the guests being the honored guest, Frances Kirkpatrick, Betty Wagoner, Katherine Green, Eleanor Lambert, Olive Logan, Laurette Abercrombie, Alice and Lucile Brown, Meriam Hunt and Ruth Allen. As a closing feature of the party delicious refreshments were served by the hostess.

Mrs. Charles Green entertained the members of the Monday Afternoon Card club Monday with a one o'clock luncheon at her home in North Main street. The appointments for the luncheon tables were carried out in fall flowers and besides the members of the club, Mrs. R. O. Kennedy and Mrs. Ray Compton were guests. Following the serving of the delicious repast the ladies gathered around the card tables and enjoyed the afternoon with Bridge.

MAUZY'S

A TIMELY COAT SALE

THE WEE TOT is given the same consideration in this store as his mother. If you doubt this, one inspection of the BABY SHOP will convince you. A visit now and then will keep you posted on the new things as they come in.

To further emphasize this store's attempts to put within the reach of practically every woman in this community, a good warm winter coat, this Coat Sale is announced. You will find the opportunity for choice quite ample in all sizes from 16 to 46.

Scores of attractive garments from our most reliable makers—the kind that will really protect you against winter's chilling blasts—will be offered for your selection. It will be decidedly to your advantage to choose now.

Coats that bear the original price tags up to \$45.00

\$24⁸⁵

This sale is for WEDNESDAY and THURSDAY ONLY

Warm Bedding

Piles and piles of comforters and blankets occupy a large section of our second floor. Easy to see and easy to choose, and all are moderately priced.

Stove Squares

It keeps us busy these days cutting off stove squares. The patterns, our customers tell us, are a little "different." Bordered patterns too—1½ and 2 yards square.

NOW'S THE TIME

to keep your feet dry. Men, women and children are coming to Rubber Footwear headquarters to supply their needs.

THE MAUZY CO.

Majestic Range Demonstration THIS WEEK

Conference

Eleven million women of the United States were represented in person or by proxy at the biennial conference of the National Council of Women at Decatur, Ill., when it opened recently. Mrs. Philip North Moore of St. Louis is president.

FOR ISSUING BAD CHECKS

J. N. Sims Accused of Causing Hope Bank to Close

(By United Press) Columbus, Ind., Nov. 6—J. N. Sims of Indianapolis was held under \$30,000 bond here today charged with issuing fraudulent checks.

The checks which were deposited with the state bank at Hope were said to have been the cause of the bank closing its doors two weeks ago.

It is understood that the loss to the bank totals \$30,000. Stockholders of the bank last week authorized a new stock issue to prevent the bank from being placed in the hands of a receiver.

According to the charges against Sims, he deposited checks in the Hope bank and withdrew the money before they were returned as worthless.

MARRIAGE LICENSES

A marriage license has been issued to Hiram Hagerman, a barber of Spiceland and Iona Hines, a resident of this county.

CHURCH ELECTION

All the members of the Ben Davis Creek church are requested to meet at the church Wednesday evening at seven o'clock for the election of officers and to transact other important business.

A CLEAR COMPLEXION

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep them fit. 15c and 30c.

BANDITS GET \$2,380

St. Louis, Mo., Nov. 6—Five bandits held up the Park Savings Bank just after the opening hour this morning and secured \$2,380 and escaped in an automobile. Three employees and a passerby were held captive while the robbers grabbed all the cash in sight.

MORE ROMATIC THAN A NOVEL

Why isn't a kitchen range more romantic than a novel? It is when you hear and see how a great range with a reputation comes in existence. The exhibit of the Majestic Range at Gunn Haydon's, all this week, is a revelation in how much thought, skill and ingenuity goes into making your kitchen range the best possible cooker and baker. It is time well spent to attend this demonstration. Besides, you have a chance to obtain the choice of two fine sets of cooking utensils, absolutely free, if you decide to replace your old cook stove with a Great Majestic this week instead of later. —Advertisement

YOU WILL BE AS RICH AS CROESUS WHEN SCIENCE ARRIVES AT A SOLUTION OF ITS NEWEST EXPERIMENT

The Man of the Future. He will be all-powerful. He will be possessed of a new force that will free him from his present struggle for the comforts of light, heat and energy. All of this will take place when Man learns the secret of the stars, the liberation of atomic energy. So says Professor Michael Pupin (inset).

(Copyright 1923, by NEA Service Inc.)
New York, Nov. 3—All of us will be as rich as Croesus—and richer—some day.
We will have—everyone of us—

the means of obtaining almost endless wealth, if science completes the discoveries which it has already made in part.
This is the prediction of no idle dreamer, but of a man who has made

some contributions to the world of science that have been revolutionary—Michael Pupin, professor of electro-mechanics at Columbia University since 1901, and chairman of the Committee on Aircraft Communica-

tions during the war.
"Just when that day will come, I do not know," he says smiling. "But it will come. For science is making progress at a rate that years ago would have been considered impossi-

ble.
"When it does come we will have wealth, not in money and gold, but in energy, which, after all, is the real thing."

To get the full import of Professor Pupin's idea, a knowledge of the fundamentals of the atomic structure of matter is necessary.
"Every atom of matter," explains the professor, "consists of electrons, positive and negative, the former being in the center of the structure with the latter circling around it like a satellite."

"That is according to the well known and universally accepted theory of matter."

"The simplest of all structures is the hydrogen atom which consists of only one positive center and one negative satellite. The atoms of all heavier substances, like helium, gold and other metals, all the way up to uranium, are made up of atoms of hydrogen."

"In other words, the hydrogen atom is the fundamental brick of all atomic structures."

"Since science began its detailed study into this atomic structure of things, more than 20 years ago, it has been trying to test this electrical theory of matter by breaking up the heavier atoms into their constituent parts of hydrogen."

"And now at last science has succeeded!"

"It is able to smash these heavier atoms into smaller parts, and behold! the constituent parts are hydrogen and helium atoms."

"It takes an enormous force to do it—for the atoms of hydrogen are thrown off with a velocity of more than 20,000 miles a second. The energy expended per unit of weight is enormous."

"Now, if we could reverse the process, and combine atoms of hydrogen into atoms of heavier substances, imagine the amount of energy that could be liberated."

"Each of us would be all-powerful. The scope of our work would be limitless. We would have more energy than we would know what to do with. There would be no coal strikes, no lack of wheat and power of any kind to worry us."

"Professor Aston of England said once that if the hydrogen in the atmosphere were suddenly degraded into helium there would be enough en-

ergy developed to heat the whole earth to white heat!

"But there would be one drawback. The only free hydrogen available comes from the air. If we started using it to make heavier atoms, we might in time use up all the hydrogen. And then? But there is no use worrying. For that can't happen for a long, long time to come."

"But the secret of this process of degradation of lighter atoms into heavier ones lies in the stars—and some day we are going to get it from them."

In his autobiography "From Immigrant to Inventor," just published, Professor Pupin says:

"Do not the young stars, the very hot stars, which always consist of gases of small atomic weight, obtain a supply of radiant energy from the degradation of atoms of small into atoms of high atomic weight, and, if this is so, then why shall we not some day learn this great secret from the stars?"

"The language of the stars has many deep secrets to tell; it mystifies me just as much today as it did on the pasture lands of my native village 50 years ago."

But some day, the problem will be solved, Professor Pupin believes.

"And it will be solved the sooner science becomes organized for it," he says. "Now in this country the National Research Council has been developed as an outgrowth of the war. Its work is not popularly understood yet, but soon I expect every person in the country to look upon it as the third arm of national defense—and some day it will be its first arm—a defense in peace as well as in war."

CONSERVATION AIDS FARMER

Government Shows How to Salvage Meat and Shells of Mussels for Farm Use.

FOOD FISHES ALSO RESCUED

Simple Process Turns Waste Products of Mussels into Good Fertilizer, Hog Food and Chicken Feed.

The farmers of this country will receive direct benefit from recent experiments conducted by the government in conserving the waste products of American mussel fisheries, according to a report recently issued by one of the bureaus in the Department of Agriculture.

Crushed mussel shells, from middle western streams, have been shown to be the equal of crushed oyster shells as a source of lime for laying hens.

The greatest industry connected with the mussel resources of this country is that centering around fresh water pearl shells. Thousands of dollars can now be saved annually by the production of poultry grit from the waste left after the shell has been cut for button blanks. Defective or broken blanks are put into a huge crusher, and the resulting dust has been found useful as an ingredient for stock food for hogs, as well as poultry.

Another important result of recent experiments showed that mussel meats may be used for fertilizer and also hog food. At the experiment station of the Bureau of Fisheries at Fairport, Iowa, ground mussel meats have been found to be acceptable to chickens when moistened to make a mash and mixed with grain. Dry mussel meats are a suitable food for chickens, having about the same value as fish meal.

Last year the Bureau of Fisheries rescued approximately 140,000,000 fish from the overflow waters of the Mississippi valley streams. The food value of these fishes was estimated at over \$6,000,000.

PEARL FISHERIES FORM UNIQUE INDUSTRY

Women Important Factors in Mussel Occupations Centering Around Rivers in Mississippi Valley.

The pearl fisheries of this country are opening up new occupations for women. Eight thousand women are now said to be engaged in industries centering around the raising of fresh water shells from the rivers of the Mississippi valley.

American women in increasing numbers are being drawn into the work of pearling and shelling. They not only take the shells from the waters in their search for pearls, but they know how to carefully cook out the mussel meats and sort the shells that are suitable for the manufacture of pearl buttons.

Travelers along the rivers of middle western states often see women attending the vats in which they cook the mussels in order to remove the meats from the shells. These vats are crude, cast iron affairs, heated by driftwood fires.

Women Expert Operators

The first factory to make fresh water pearl buttons was opened in Muscatine in 1881, and this city is still headquarters for the industry. Women and girls do many different types of work. They do the grading by which the rough bark of a shell is removed, and they are skillful operators of the automatic machines.

Home Work a Feature

One very important feature of the unique industry which has grown up around the fresh water mussel fisheries of this country is the work that can be done by women in their own homes. The placing of buttons on cards gives occupation to hundreds of women. The city of Muscatine has long been accustomed to the sight of women with their many little telescope grips, which carry buttons to and from the factories. The sorting and grading of buttons is distinctly a feminine occupation.

Do You Save Enough?

BANKERS say that saving money is largely a matter of habit—of systematically putting away something every pay day—of consistently thinking in terms of thrift.

The bankers are right. But remember that thrift embraces buying as well as saving. It is "penny wise and pound foolish" to save by scrimping and yet spend money needlessly in making your every-day purchases.

Has it ever occurred to you that every day you can save something simply by reading the advertisements in this paper? Do you realize that the advertisements tell you just where and when to buy to advantage—that they tell you how to avoid regrettable expenditures?

Thrifty folks realize that advertising has reduced the selling cost of thousands of factories and stores. Many of the things that today count as necessities or simple luxuries could not be sold at anything like their present prices had not advertising created a broad market for them. It has made millions of sales at small profit where otherwise there would be thousands of sales at large profit per sale.

So, you owe a great deal to advertising. And you owe it to yourself to read advertising.

Advertising helps you save money
Read it systematically

ENDORSE FORGET-ME-NOT APPEAL

Coolidge and McCray Make Public Statements in Favor of Raising Funds For Invalid Veterans

NATIONAL APPEAL NOV. 10

President Expresses Hope That Forget-Me-Not Day Will Be Generously Supported by Public

Indianapolis, Ind., Nov. 5—Endorsements of the Forget-Me-Not appeal to raise funds for the invalid veterans, from President Coolidge and Governor McCray were made public today at the state headquarters of the Forget-Me-Not organization by Mrs. John Huntington, state director. The appeal will be made nationally November 19, designated Forget-Me-Not day.

President Coolidge's message addressed to James A. McFarland, national commander of the Disabled American Veterans of the World War, reads:

"I want to express to you that the observance of Forget-Me-Not day by the Disabled American Veterans of the World War, on Saturday, November 10th, will be generously supported by the public.

"The thousands who bear scars of the war will always hold their place in the hearts of the American people. You can be assured that those in places of national responsibility are striving to the utmost to aid and compensate them, so far as compensation is possible. Your organization has shown a fine spirit of co-operation with the government instrumentalities engaged in this difficult task, for which I am glad to express appreciation.

Governor McCray, in his letter to Mrs. Huntington, said:

"Your plan of raising funds for the Disabled American Veterans of the World War is indeed unique and I trust will be successful. There is no duty more pressing upon the people of this great country than to take care of its wounded and disabled soldiers.

"I wish you much success in your endeavors to raise funds for that most worthy cause."

Important to all Women Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be tedious; it makes anyone so. But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions. Many send for a sample bottle to see what Swamp-Root, the great kidney live, and bladder medicine will do to them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y. you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.

MOVIES

Hyena Has A Role

"In a long stage and screen experience, one finds many actors who are temperamental to the nth degree but we recently encountered one who had them all lashed to the mast—a hyena." So said Director John Griffith Wray, director of "Human Wreckage," seen at the Princess Theatre again today.

"After three weeks of exhaustive search for a hyena who was vicious enough to carry out the ideas of our script, it took more than three weeks filming the action of the brute.

"He worked when he wanted to and when he didn't feel like it he didn't. We actually spent a whole day trying to get him to do one or two simple tricks for some double exposures. He growled from morning till night, he cut up yards of velvet with his claws and he even took a nip at the hand of one of the men trying to keep him within camera lines.

"But," said Wray, "we got some great stuff with this fellow.

"Big Dan" at Mystic

It seems that we can run away from nothing on this round earth of ours, without coming back to where we started. The earth is obviously round in its moral composition as well as in its physical. In "Big Dan," the Charles Jones production made by William Fox and presented at the Mystic Theatre again today a wife deserts her husband for a worthless, negatory roue.

She did this while the husband was fighting in France. When he returns to his tenanted home he gives up his profession of boxing. The country training camp that was an inheritance from his famous pugilist father, he converts into an outdoor school for boys.

Later, his wife returns, broken in body and spirit, an abject penitent, victim of tuberculosis. His regard for her has died and she is sent to a Western sanitarium. Later still, while working on his new profession philanthropy, he meets and conceives a deep love for the beautiful daughter of an old man he has attempted to restore to health.

He is unable to declare his love by reason of his unfortunate marriage. In the meantime another takes advantage of his silence to demonstrate his own affection. The rival is a prize-fighter being trained by Big Dan for an important bout. Considered from every angle the story and its development, the cast and its performance want nothing to be perfect.

IS A CANDIDATE FOR MAYOR AT LEXINGTON

A. G. McGregor, Formerly Superintendent of Schools Here, Wins Out in Primary Contest

IN REALTY BUSINESS NOW

Alfred Gay McGregor of Lexington, Ky., who was superintendent of the Rushville city school from 1900 to 1904, is a candidate for mayor of Lexington, according to an announcement in the Lexington Leader, who characterizes him as having polled a most remarkable vote as an "unknown" mayoralty candidate in the primary of last Saturday.

The article in the Lexington paper answers the question as to who Mr. McGregor is, and his life sketch is published. The former local man since leaving here was on the faculty at the University of Kentucky, and while there, became interested in real estate in Lexington, and through his efforts the cost of building sewers, was reduced 50 percent, according to the newspaper dispatch.

Mr. and Mrs. McGregor reside at 353 Lexington Avenue. During the past 15 years he has built 135 houses in that city and has opened several additions. In seeking to become mayor, he says his race is being made solely because he believes that he can render a definite service to the taxpayers of the city.

The former local man will no doubt be remembered by many Rushville people, and especially the pupils who attended school when he was superintendent.

TAXPAYERS HERE WILL ORGANIZE

Continued From Page One

A nominal fee of \$1 is charged as annual dues, all of the money to remain in the county in which it is paid, and to be used by the county association to meet running expenses.

Claud Cumber presided as temporary chairman of the meeting Monday and Roy E. Harrold acted as temporary secretary. Many men present expressed their approval of the association before it was decided to organize a county association.

Douglas Morris was the most forceful in his declarations for the need of an organization dedicated to the purpose of keeping down taxes. He expressed the belief that half of the money spent for roads could be saved without injury to the road system. He also asserted that money could be saved on schools and that too much is being spent on commissions.

Mr. Morris pointed out that the

Over in Germany cash is out of the question when paying school fees. The children couldn't carry enough marks to pay the bill. So they bring teacher a sack of potatoes and some butter for a month's tuition.

Republican, and the trustees were unanimous in their praise for the publicity given the schools, and they will urge their principals to see to it that the items are supplied each week.

The plan this year is to have the page published weekly, and next year the Reflector may be published as a county school newspaper, and sustained by its own accord.

A series of tests, known as Intelligence tests is being planned for the schools within the next few weeks and this will assist the school authorities in the classification of pupils.

The session yesterday closed with a 40 minute talk by Mr. Farthing, who told of his observations in the Maryland schools and the system employed there, as related to the supervised work, organized around the county unit plan.

TRIBUTE PAID TO CHARLES H. BROWN

Continued from Page One

subject of many sermons by ministers and of many addresses and articles by laymen. We know of the fatherhood of God and this proves to me what the brotherhood of man means."

Mr. Brown was visibly affected by the tribute from Judge Sparks and the warm applause from the Masons present, indicating their approval of what the toastmaster said.

Mr. Brown recalled that three years ago Rushville council decided that it should be represented on the grand council and notified him that

he had been selected as the council's candidate. Mr. Brown said that he appreciated the honor, but that he realized he was only the means to an end.

He declared in conclusion that he hoped to be able to uphold the honor of Rushville council, so long as he remained a member of the council.

SILAGE EXPERIMENTS STARTED AT PURDUE

A great part of the winter feed of the dairy cows of Indiana is made up of silage. Corn makes up the most of this silage, but sunflowers, because of their large yield, have been used with some success as a silage crop in many parts of the country.

Last year for the first time sunflower silage was fed to dairy cows at the Purdue University Agricultural Experiment Station, and results favorable to sunflower silage were obtained in comparing sunflower silage; mixed corn and sunflower silage and corn silage. A similar trial is being started again this fall the results of which should be available about the first of the year.

Another silage experiment is also being started making a comparison between the value for milk production of silage made from yellow dent corn and that made from a common variety of ensilage corn. The ensilage corn has been out-yielding the yellow dent corn in tonnage, and this comparison is expected to show the relative milk producing value of these two kinds of corn when made into silage.

CONCERNED ABOUT 1924 SEED CORN

Farmers Advised to Select Enough
to Plant Crop From Old Corn if
They Have it on Hands

THIS YEAR'S CORN SAPPY

Will Take as High as 85 Pounds to
Make a Bushel After it is Dried
Out, According to Estimates

Because of the present condition
of the corn crop, Rush county farm-
ers are concerned about their supply
of seed for next spring and well they
should be for seed corn is going to
be seed corn next spring. According
to the county agent, corn is so sappy
that it will take as high as 85 pounds
to equal a bushel after it is dried out.

The high moisture content means
added danger to germination from
freezing and an effort should be
made during the husking season to
get out as much seed as possible and
hang it so that it will dry out as
quickly as possible. The germination
is not yet destroyed although there
have been some severe freezes and if
dried out at once, it will still be pos-
sible to obtain seed from the field.

Method of storage is more import-
ant than time of gathering. Corn
may be gathered from the standing
stock way in advance of shucking
time and before frost, but if piled up
where it will not properly dry out it
may be inferior to seed selected after
a freeze and stored so that it will dry
quickly.

The farmer who has old corn on
hands will do a wise thing if he will
select enough good ears to plant his
crop. New corn is to be preferred,
however, because it usually sprouts
a little sooner than old seed. But a

TESTING PROCEEDS RAPIDLY

During September 430,191 Cattle
Were Tuberculin Tested

During September, 430,191 cattle
were tuberculin tested under the
systematic plan of tuberculosis erad-
ication conducted by various States
and the United States Department
of Agriculture. A total of 14,604 re-
actors was found. The elimination of
these diseased cattle during the
month is the first step in freeing the
herds, in which they were found,
from the disease, as well as being a
measure for human welfare. The popu-
larity of tuberculin testing among
livestock owners is shown by the ex-
tent of the waiting list, which at the
end of September consisted of 146,-
487 herds.

ONE OUT OF EVERY 25 HOGS DIES OF CHOLERA

Appraisal of Ravages of Hog Chol-
era is Made by Bureau of Animal
Industry For Year 1923

DISEASE IS PREVENTABLE

Approximately 4 percent of the
hogs on farms in the United States
died of hog-cholera last year. This
appraisal of the ravages of hog
cholera is made by the Bureau of
Animal Industry, United States De-
partment of Agriculture, for the year
ended April 30, 1923, and is based
on estimates of the Bureau of Agri-
cultural Economics. Losses were
heaviest in Iowa, Nebraska, Indiana,
Missouri, Illinois, Ohio, Georgia,
Minnesota, and South Dakota in the
order named. Each of these States
lost more than 100,000 head of swine
from the disease during the year, as-

FARM BUREAU TO MEET DEC. 6 AND 7

All Departments of State Federation
Are Pushing Their Activities And
Members Reap Benefits

HANDLE 300 CARS OF COAL

Many Speakers to be at Annual
Convention in Indianapolis—
Purdue President to Speak

All departments of the Indiana
Farm Bureau are pushing their ac-
tivities, and members are reaping
benefits from their association with
the farm bureau. With considerable
hog cholera in the state many hog
raisers are cashing in on their mem-
bership in the farm bureau as the
result of contractual relations made
with the Swine Breeders' Pure Ser-
um Company, of Thorntown, Ind.
Under this contract a part of the re-
turns of the company, which is
owned by the farmers, goes back to
the members, thus resulting in re-
duced prices for serum at a time
when it is most needed.

So far this fall the purchasing
department of the Indiana Farm
Bureau Federation has handled more
than 300 cars of coal for its mem-
bers. Questionnaires sent out to buy-
ers of farm bureau coal show that
a very satisfactory grade of fuel is
being laid down for them at a cost
considerably below the regular mar-
ket price. J. D. Kirkpatrick, who has
been manager of the Bartholomew
County Shipping Association, a farm
bureau organization, has been added
to the state forces for the purchas-
ing department. He will have charge
of the feed.

Much interest has been aroused in
the campaign for membership, which

FARM INSTITUTES WILL BEGIN SOON

Institute Scheduled From Purdue
Shows 500 Meetings Scheduled
For This Season

WILL OPEN NOV. 20

Speakers on The Staff Will Include
36, Including Many New Ones
—Season Ends March 1

Lafayette, Ind., Nov. 6—Nearly
500 farmers' institutes are sched-
uled to be held in Indiana during the
next few months) according to the
institute schedule for 1923-24, which
is being mailed out from the Agri-
cultural Extension Department of
Purdue University. Prospects now
are for the best institute season in
the history of this work, according
to W. Q. Fitch, state leader of in-
stitutes. Meetings will be held in ev-
ery county of the state.

The season will open Nov. 20, with
institutes at Union, Pike County;
Floyd Knobs, Floyd Co.; Elizabeth,
Harrison Co.; Vallonia, Jackson Co.;
Mooresville, Morgan Co.; Pilot Knob,
Crawford Co.; Unionville, Monroe
Co.; Pekin, Washington Co.; Rich-
land, Spencer Co.

Speakers on the institute staff,
which numbers 36, will be at these
various meetings on the opening day
and many of them will be busy near-
ly every day for the next three
months. The season will close March
1, with meetings in the northern
half of the state.

The institute staff this year in-
cludes several new speakers, but all
are practical farm men and women
from over the state who have made
a success of their respective lines of
work. The list of speakers this year

SOUTH AFRICA AT CORN EXHIBITION

Eight Different Entries of Corn From
That Country Will be at Interna-
tional Show

AT CHICAGO, DEC. 1 TO 8

Among The List Will be Palin's Corn
Flake Corn, Which Won \$1,000
Kellogg Trophy

Lafayette, Ind., Nov. 6—Eight
different entries of corn from Trans-
vaal, South Africa, some of which
was grown from seed obtained from
Indiana's world famed corn breeders,
will be on exhibit at the Interna-
tional Grain and Hay Show to be held
in Chicago Dec. 1 to 8. This was
the word received today by W. Q.
Fitch, of the Agricultural Extension
Department of Purdue University
who will serve as assistant superin-
tendent and will be in direct charge
of the show again this year.

E. A. Papendorf, of Reismierbult
Station, near Johannesburg, vice-
president of the South Africa Maize
Breeders, Growers' and Judges' As-
sociation, who advertises on his let-
terhead that he is a breeder of "Palin's
Corn Flake" wrote Mr. Fitch that
he and seven other growers were
sending samples Sept. 13, so as to
reach Chicago in time for the show.
He enclosed several photographs of
corn grown in South Africa and
which was shown in their spring
show held at Johannesburg Sept. 5
and 6 and from which the entries
were selected to send to Chicago.

Palin's Corn Flake corn was estab-
lished by Fred C. Palin of Newtown,
who won the \$1,000 Kellogg corn
trophy awarded at the National Corn
Show at Omaha, Neb., in 1909. Pa-

SOY BEAN PRODUCTION EQUAL TO LAST YEAR

Larger Percentage of Production
Than Ever Before Will be Made up
of Early Varieties

OFFER GROWERS HIGH PRICES

The 1923 production of soy beans
is expected to be equal to or slightly
larger than that of last year, ac-
cording to information obtained by
the U. S. Department of Agriculture.
The smaller acreage in eastern North
Carolina is offset by a somewhat
higher yield per acre in that section
and a prospective increased produc-
tion in South Carolina, Delaware,
Indiana, and Illinois.

A larger percentage of the total
production than ever before will be
made up of the early maturing vari-
eties because of the indicated in-
creased production in Delaware and
the Corn Belt States. The production
in the latter section, however, is not
so large as conditions earlier in the
season indicated. Local frost damage
around the middle of September re-
duced the yield somewhat and in
some instances influenced growers to
cut their soy beans for hay. A fact
of considerable importance is the
large increase in the available quan-
tity of the Manch variety which has
proved to be highly adapted for
growing over a wide area in the Cen-
tral West.

The supply of Mammoth Yellows
probably will be slightly less than
last year because of the 5% smaller
production reported for North Caro-
lina. This should be sufficient to sup-
ply the demand, however, because the
early varieties from the Corn Belt
States are being used to some extent
in areas formerly using Mammoth
Yellows exclusively.

SOYBEAN CROP IN EXCELLENT YIELD

Purdue Gets 26 Bushels to Acre by
Using Good Methods on Slash-
land in Jennings

BEST RESULTS ARE SEEN

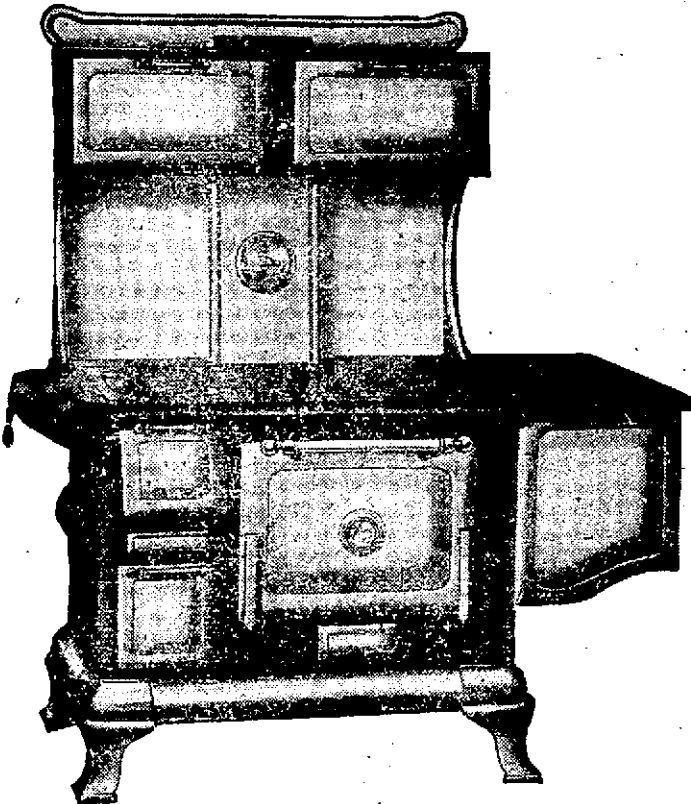

Test Was Made on Experimental
Farm And Crop Harvested in Fine
Weather, Report Shows

The 10-acre of soybeans on the
Jennings County Experiment Field
operated by Purdue University Agri-
cultural Experiment Station aver-
aged a little over 26 bushels per
acre. The beans ripened in good time
to harvest during the fine weather
which prevailed the first week in
October and were in excellent condi-
tion for threshing. Undrained, un-
treated land made 16 bushels per
acre. On undrained land where lime-
stone was applied three years ago
and fertilizer used on corn the yield
was 24 bushels.

G. P. Walker of the Purdue sta-
tion staff who is in charge of the
Soils & Crops experiment fields over
the state, stated that this is a fine
yield of beans and shows the possi-
bilities of soybeans as a regular
field crop for the slash land.

"Soybeans can stand wet land bet-
ter than corn. They will make a good
yield of rich hay and a fair yield of
seed on the undrained slash land
and should be grown on every farm
in southeastern Indiana where clover
is not grown every year," he said,
in commenting on the value of this
crop. "The yield of 16 bushels per
acre on the untreated land that
made only 20 bushels of poor quality
corn for the last two years shows
what this crop will do on this land."
(Continued on Next Page)

STOVE WEEK AT POLK'S HARDWARE STORE

Demonstration All Week Nov. 5th to Nov. 11th

The Factory Representative will be here all week to explain why the
COPPER-CLAD RANGE

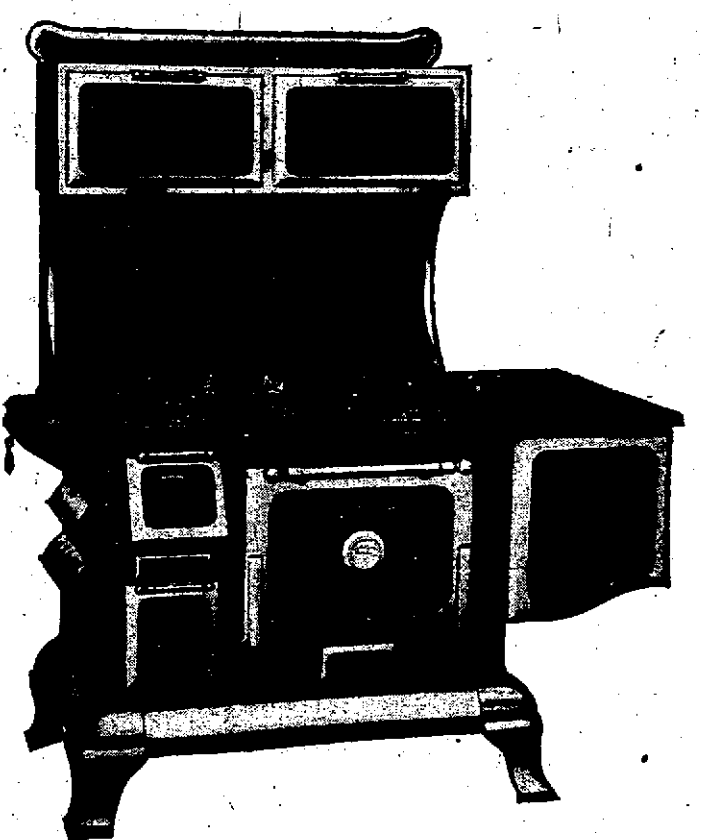

has 36 Exclusive Features which cannot be found on any other Range
Don't Forget the name **COPPER-CLAD**. The Stove with **COPPER LINING**

Free!

Free!

Free!

ONE COMPLETE SET OF
PYREX BAKING GLASS-
WARE OR A COMPLETE
SET OF BEAUTIFUL
ALUMINUM GIVEN AWAY
WITH EACH COPPER-
CLAD RANGE THIS WEEK.

MORE FOR YOUR MONEY — You
get more for your money when you
buy a Copper-Clad. You get a range
lined with Pure Sheet Copper — a
range that will serve you well and
long.
You get a beautiful range—one easy

to keep clean. No hinges, catches,
latches or springs — a scientific
wonder.
If your old range is rusted out, if it is
covered with bolt heads and dirt catch-
ing frills, you will appreciate the plain
smooth surface of the Copper-Clad.

The Copper-Clad range is so superior
to any other range that even to the
present time we have never ordered
grates, back, walls, etc., that are fre-
quently ordered for other ranges.
Many Copper-Clad ranges are used in
Rush County by satisfied users with-

out an exception. They bake even.
Don't fail to call this week and just see
the range that won't rust out.
If you never expect to ever need a
range, call and see this beautiful range

DON'T FORGET THIS WEEK

Copper - Clad Ranges are made in four styles

White, Blue and Gray Enamel also Black

been doing their part to help get in a supply of good seed. The various classes in agriculture have not only been studying seed corn in the classroom, but each boy has selected and stored a minimum of fifty ears of seed.

FARM BUREAU TO MEET DEC. 6 AND 7

Continued From Page One

is now under way. Starting in the northeast part of the state the campaign is proceeding by townships, counties and districts, and reports of the first week's work are very encouraging.

Plans are being made for the fifth annual convention of the Indiana Federation. It will be held at Indianapolis December 6 and 7, and among the speakers will be Aaron Sapiro, Walton Petet, Geoffrey Morgan, secretary of the Kentucky Farm Bureau Federation, and E. C. Elliott, president of Purdue University.

The Indianapolis Producers' Commission Association handled 234 carloads of livestock during the week ending October 27, about 26 per cent of the total business handled at the Indianapolis stockyards during the week. Better than one-fourth the total business is being handled at all times. While the total for the week in carloads is not so great as for the same time last year, this is accounted for by the fact that the growers are holding back their stock in order to put on as much weight as possible while good weather remains.

FAR INSTITUTES WILL BEGIN SOON

Continued From Page One

Buckeye nuts will soon begin to fall. Where they occur in large numbers it will pay to rake and burn them as they are poisonous to livestock.

BALANCED RATION PAYS BROWN CO. PRODUCERS

Of the 31 farmers in Brown county keeping egg records in the state contest conducted by the poultry extension division of Purdue university 32 are feeding a balanced ration and 19 are feeding unbalanced rations. The 32 co-operators feeding a balanced ration are using the Purdue Standard Laying Ration and are using tankage as the animal protein in the mash. The 19 feeding the unbalanced ration are feeding corn and wheat, corn alone, corn, wheat and bran or corn, bran and shorts. The ten best records of the flock where a balanced ration is fed, received an average of 98 eggs per hen from a total of 1053 hens during the six months' period, March 1 to August 31. During the same time, the 912 hens in the ten best flocks receiving an unbalanced ration, laid an average of 61 eggs per hen. The hens receiving an animal protein in the mash laid 37 eggs more per hen than those which have received no animal protein in the mash. The flocks fed tankage are still laying while those which received no tankage or other animal protein have about quit laying. The best flock composed of 140 White Leghorns have laid an average of 124.9 eggs per hen during the six months, March 1 to August 31. This flock has had the best of care and received the Purdue Laying Ration. The poorest flock of 110 mongrel hens has laid an average of 43.1 eggs per hen during the same time. This flock has been fed corn alone and most of the hens roost in trees.

SOUTH AFRICA AT CORN EXHIBITION

Continued on Page Two

pendorf got his seed originally from Mr. Palin's corn. The United States Government now has an embargo against ear corn from Africa because of danger of bringing in disease of insects which would damage American crops. To get around this embargo, however, the corn is being sent the Department of Agriculture at Washington, at the request of the Grain Show Management. It will be sterilized there before being sent to Chicago.

ONE OUT OF EVERY 25 HOGS DIES OF CHOLERA

Continued from Page One

suming that 80 percent of the deaths from all causes among hogs is due to cholera. The total number of swine lost from hog cholera exceeded 2,250,000, valued at approximately \$29,393,000.

The highly contagious nature of hog cholera makes the disease difficult to control. The preventive serum treatment combined with strict sanitation and thorough disinfection of premises after outbreaks, are the most effective control measures. The losses reported for last year are not so great as in 1913 and 1914 when the disease appeared particularly prevalent, but they were larger than department experts consider they should have been considering that swine growers have a preventive treatment which is effectual, if used properly before the animals become sick.

SOYBEAN CROP IN EXCELLENT YIELD

Continued from Page One

The soybeans on this field were the Manch variety drilled solid the first week in June, six pecks per acre. The seed was thoroughly inoculated by mixing soil taken from around the roots of last year's crop. The inoculation was helped further by beans having been grown with a previous corn crop. Part of the field was cut for hay in August, yielding three tons of cured hay per acre. The rest of the field, about 10 acres, was cut for seed with a binder after most of the leaves had fallen, shocked two and two, and threshed when dry. The ten acres threshed out a little over 260 bushels of seed. Six acres of the land was tile drained and the other four acres untilled. No fertilizer was used on the beans but all except one-half acre was limed at the rate of 3 tons per acre in 1921, and the two crops of corn grown in 1921 and 1922 were well fertilized.

The soybean stubble was disked, culptacked and seeded to Parkoff wheat just after the fly-free date and fertilized with 300 pounds of a 2-12-6 fertilizer per acre. This wheat is the new variety which has yielded so well in the local variety tests the past two years and its performance will be watched with interest.

PRODUCERS ENLARGE OFFICE

The National Live Stock Producers Association has moved its general headquarters from Room 1225 to Room 1976, Transportation Building, 608 South Dearborn Street, Chicago.

ONE CENT SALE at the 99c STORE

Thursday

Allen County Farmers Get More For Their Milk

For over two years the County Agent and dairymen of Allen County have been studying the milk market situation in Ft. Wayne, with a view in increasing the price to the producer without cost increase to the consumer. The milk producers were brought together and induced to organize, pooling their product for sale for five years through their association. The original plan was to retail milk direct to consumer and each farmer producer signed a note for \$30 for each milk cow on his place. The Association was incorporated and a retail plant purchased. The distributors who heretofore had assumed a very unfriendly and antagonistic attitude before, upon the announcement of the purchase of the plant, asked for a meeting to discuss probability of co-operation. The meeting was called and after many other conferences a contract was drawn up and signed by about twelve of the larger distributors and the Dairy Marketing Association whereby the distributors contracted to purchase all of their milk and cream from the Association on the latter's weights and tests, the Association agreeing not to engage in the retail business. The present price is \$1.85 per 100 lbs. of 3.5% milk at the farmer's gate or \$2.25 delivered. The new price adjustment will be on a 50-50 basis with a guaranteed minimum of \$2.78 for 3.6% milk. When milk retails at 12c per quart the Association will receive \$2.78 for 3.6%.

When milk retails at 13c per quart the Association will receive \$3.01 for 3.8%.

When milk retails at 14c per quart the Association will receive \$3.24 for 4%, as a base price so the new arrangement will mean at least 65-70c increase per hundred for all who sign contracts. The amount of milk signed will be about 5,000 gallons per day. Figured on this basis at 65c per hundred increase, it will mean from \$75,000 to \$100,000 per year for the milk producers of Allen County. It also means that from 500-600 men who never were in the Farm Bureau will no be brought in as a result of this action and the producers and distributors will be working in harmony.

MANY CRIMES AGAINST TRUTH ON SUBJECT OF "SOUND CURRENCY"

How demagogues are using false doctrines of so-called "sound money" to give themselves or the class they represent unfair advantages at the expense of real producers is exposed in the Journal of the American Bankers Association by H. Parker Willis, expert on the money question.

"There is no subject in whose name more crimes against truth have been committed than that of 'sound currency,'" Mr. Willis says. "The term is always resorted to by demagogues. At the present moment there seems to be a danger that it will be used by a potential presidential candidate as representing the platform upon which he expects to run. There is no question that more nearly and directly touches the immediate welfare of every class in the community."

Primary functions of money and

currency, it is explained, are to serve as a means of exchanging goods and as a means of measuring the value of goods. Mr. Willis continues:

"Demagogues and those who are disposed to mislead the public for various ulterior reasons have succeeded in disseminating an entirely different view of the purpose of money. Some of them contend that the soundness or best currency is that which is so arranged as to bring about a 'fair' redistribution of wealth. They want a constantly depreciating currency—one which keeps playing into the hands of the seller of goods, by enabling him to count confidently upon higher prices in terms of money so that he pays the producer from whom he has obtained them less and less. It is a strange thing that this kind of currency is often highly praised or favored by the producer himself, not

withstanding that he is the greatest sufferer from it."

There is another popular view of sound currency which aims to base it upon "natural products" or "natural forces"—usually it is true, specifying products or forces which have been monopolized or can be controlled by the advocate of such currency. Thus from time to time there have been schemes to issue a currency based upon or protected by farm products stored in warehouses or occasionally representing "units" of energy or horse power.

The rulers of Soviet Russia at one time attempted to introduce a currency representing "labor time," each man receiving a check representing the number of hours of time he had put in at work, while goods themselves were to be valued in terms of hours of production time. Thus one man who put in an hour's

time in street cleaning received the same control over goods as he who put in an hour's time at surgery. The theory was that this kind of "sound" currency enabled the "poor man" to get a larger supply of goods.

"The trouble was that when those who could perform a certain kind of labor were not paid in proportion to their effort they stopped making goods. So it was not very long in Russia before the sound currency which was issued in favor of the poor man had brought it about that the poor man could not buy anything with the currency. This was an unfortunate kind of 'soundness'. We do not want something like it in the United States today, yet very similar proposals are now being made in a good many quarters that ought to know better," says Mr. Willis.

When you buy your range—Buy a Copper-Clad

THE PROOF OF THE BARBERRY PUDDING

Indiana Farmer's Guide: That barberry eradication is proving an effective control of heavy black stem rust epidemics has been demonstrated in a number of cases this summer. During the winter The Guide carried a story in Dr. C. T. Gregory's series which told of the rust spread in Rush county from a 100-year-old bush on the Darius Patterson farm and gave an account of the damage to the crops in 1922 and preceding years. The bush was destroyed last fall. In 1923 the area was free from rust and Mr. Patterson said that this was the first time his wheat had escaped since 1882.

The Guide also carried a story of the severe rust damage last year which was traced to common barberry in Decatur county near Alert. The bushes were destroyed and this summer an inspection revealed that farmers whose fields were not worth harvesting last season had 20 bushel yields this year.

A number of cases of heavy rust closely associated with the common barberry were observed this year. In Shelby county a field of wheat on the Landy Brown farm was planted near a large common barberry bush. The part of the field nearest this bush did not yield over three or four bushels to the acre. Mr. Brown said, because of the severe rust infection.

Along the bank of the Flat Rock River in another part of the county, four large common barberries were found. These bushes caused an infection in several wheat fields just across the river. A 35-acre field nearest the bushes yielded only 13 bushels to the acre. The field next removed yielded 18 bushels. Other fields, farther away, showed higher yields.

In Randolph county, not far from Huntsville, considerable rust was noted on a field of wheat. From five to ten rods away two large common barberry bushes were found. The grain nearest these bushes was heavily infected and the kernels badly shriveled. As the distance from the bush increased the amount of rust decreased until it finally disappeared.

MONEY FOR FARMERS

Eight million dollars of intermediate credit is already in farmers' hands and the Federal Farm Loan Board has accepted commitments involving loans of \$8,000,000 more, according to M. L. Core, who has charge of setting up the Intermediate Credit System.

Here we are, in the midst of the greatest selling season of our entire history — Selling more garments — Satisfying more customers — Offering better values than ever before. Why is it that all records are being beaten? Why is it that this season's sales are out-classing all others? Think! Why, it's because buying at Casady's means absolute satisfaction. Women buyers today are looking for something more than a mark on a price tag. They judge the price by the merchandise. They investigate; they compare. They are convinced that our goods are always absolutely dependable.

IT'S WHAT YOU HAVE WHEN YOU GET HOME THAT COUNTS

And all the "sales-talk" in the world will not make up for the total lack of quality in the goods you bought at a "Bargain" simply because the price was cheap.
